Edw. A. X. 1167

~~Received~~

10 - 10 Kingston

Department of Crown Lands,

Quebec, 13th May 1865.

My dear Sir,

I received yours of

the 8th. This morning & as the mail is made up at 1 P.M. the

M. P. is giving me their letter & much more I have not time

to write at length. I'll do to you

security you should write the above

secretary as you have no "Principal

Officer or Person of the Department"

higher than yourself to report to,

With reference to Mr. Little's report

I suppose you are going to lay the

case out in turn both as the boundaries

should be ascertained & then place

with the proper security.

is an expensive affair especially in old towns like Newmarket. We pay our surveyors for the survey of townships \$4.00 a day but \$5.00 is the usual price for private practice. We pay the travelling expenses of the surveyor, his assistant or chief chamberlain.

We give the surveyor an advance of about $1\frac{1}{4}$ of the estimated cost of the survey to enable him to procure supplies, pay transport & when he has finished the field work he sends in a statement of the amount of his pay less travelling & transport charges which we pay, deducting the advance & pay him the balance of his account. & then is his own pay &

charge for plans & reports when he sends them in & they are examined.

Mr. Gibbs acct came to us we would pay \$68.65 at once, that is his two assistants pay this travelling expenses & returning, leaving his own pay till the survey was completed.

The survey was made at the most expensive time - the days being at the shortest & the weather broken. In fine weather in May or June a little more than half the time would have done the work.

This is rather a disappointing letter as I have been of ten interrupted. Mr. Gibbs accounts for the time subsequently & is sincerely

15

Toronto May 27, 1863.

Sir,

I have the honor to transmit
for your information the following Extract
from the minutes of a meeting of the
Senate held March 12th last:-

" Moved by the Vice Chancellor seconded
" by Dr Croft and carried

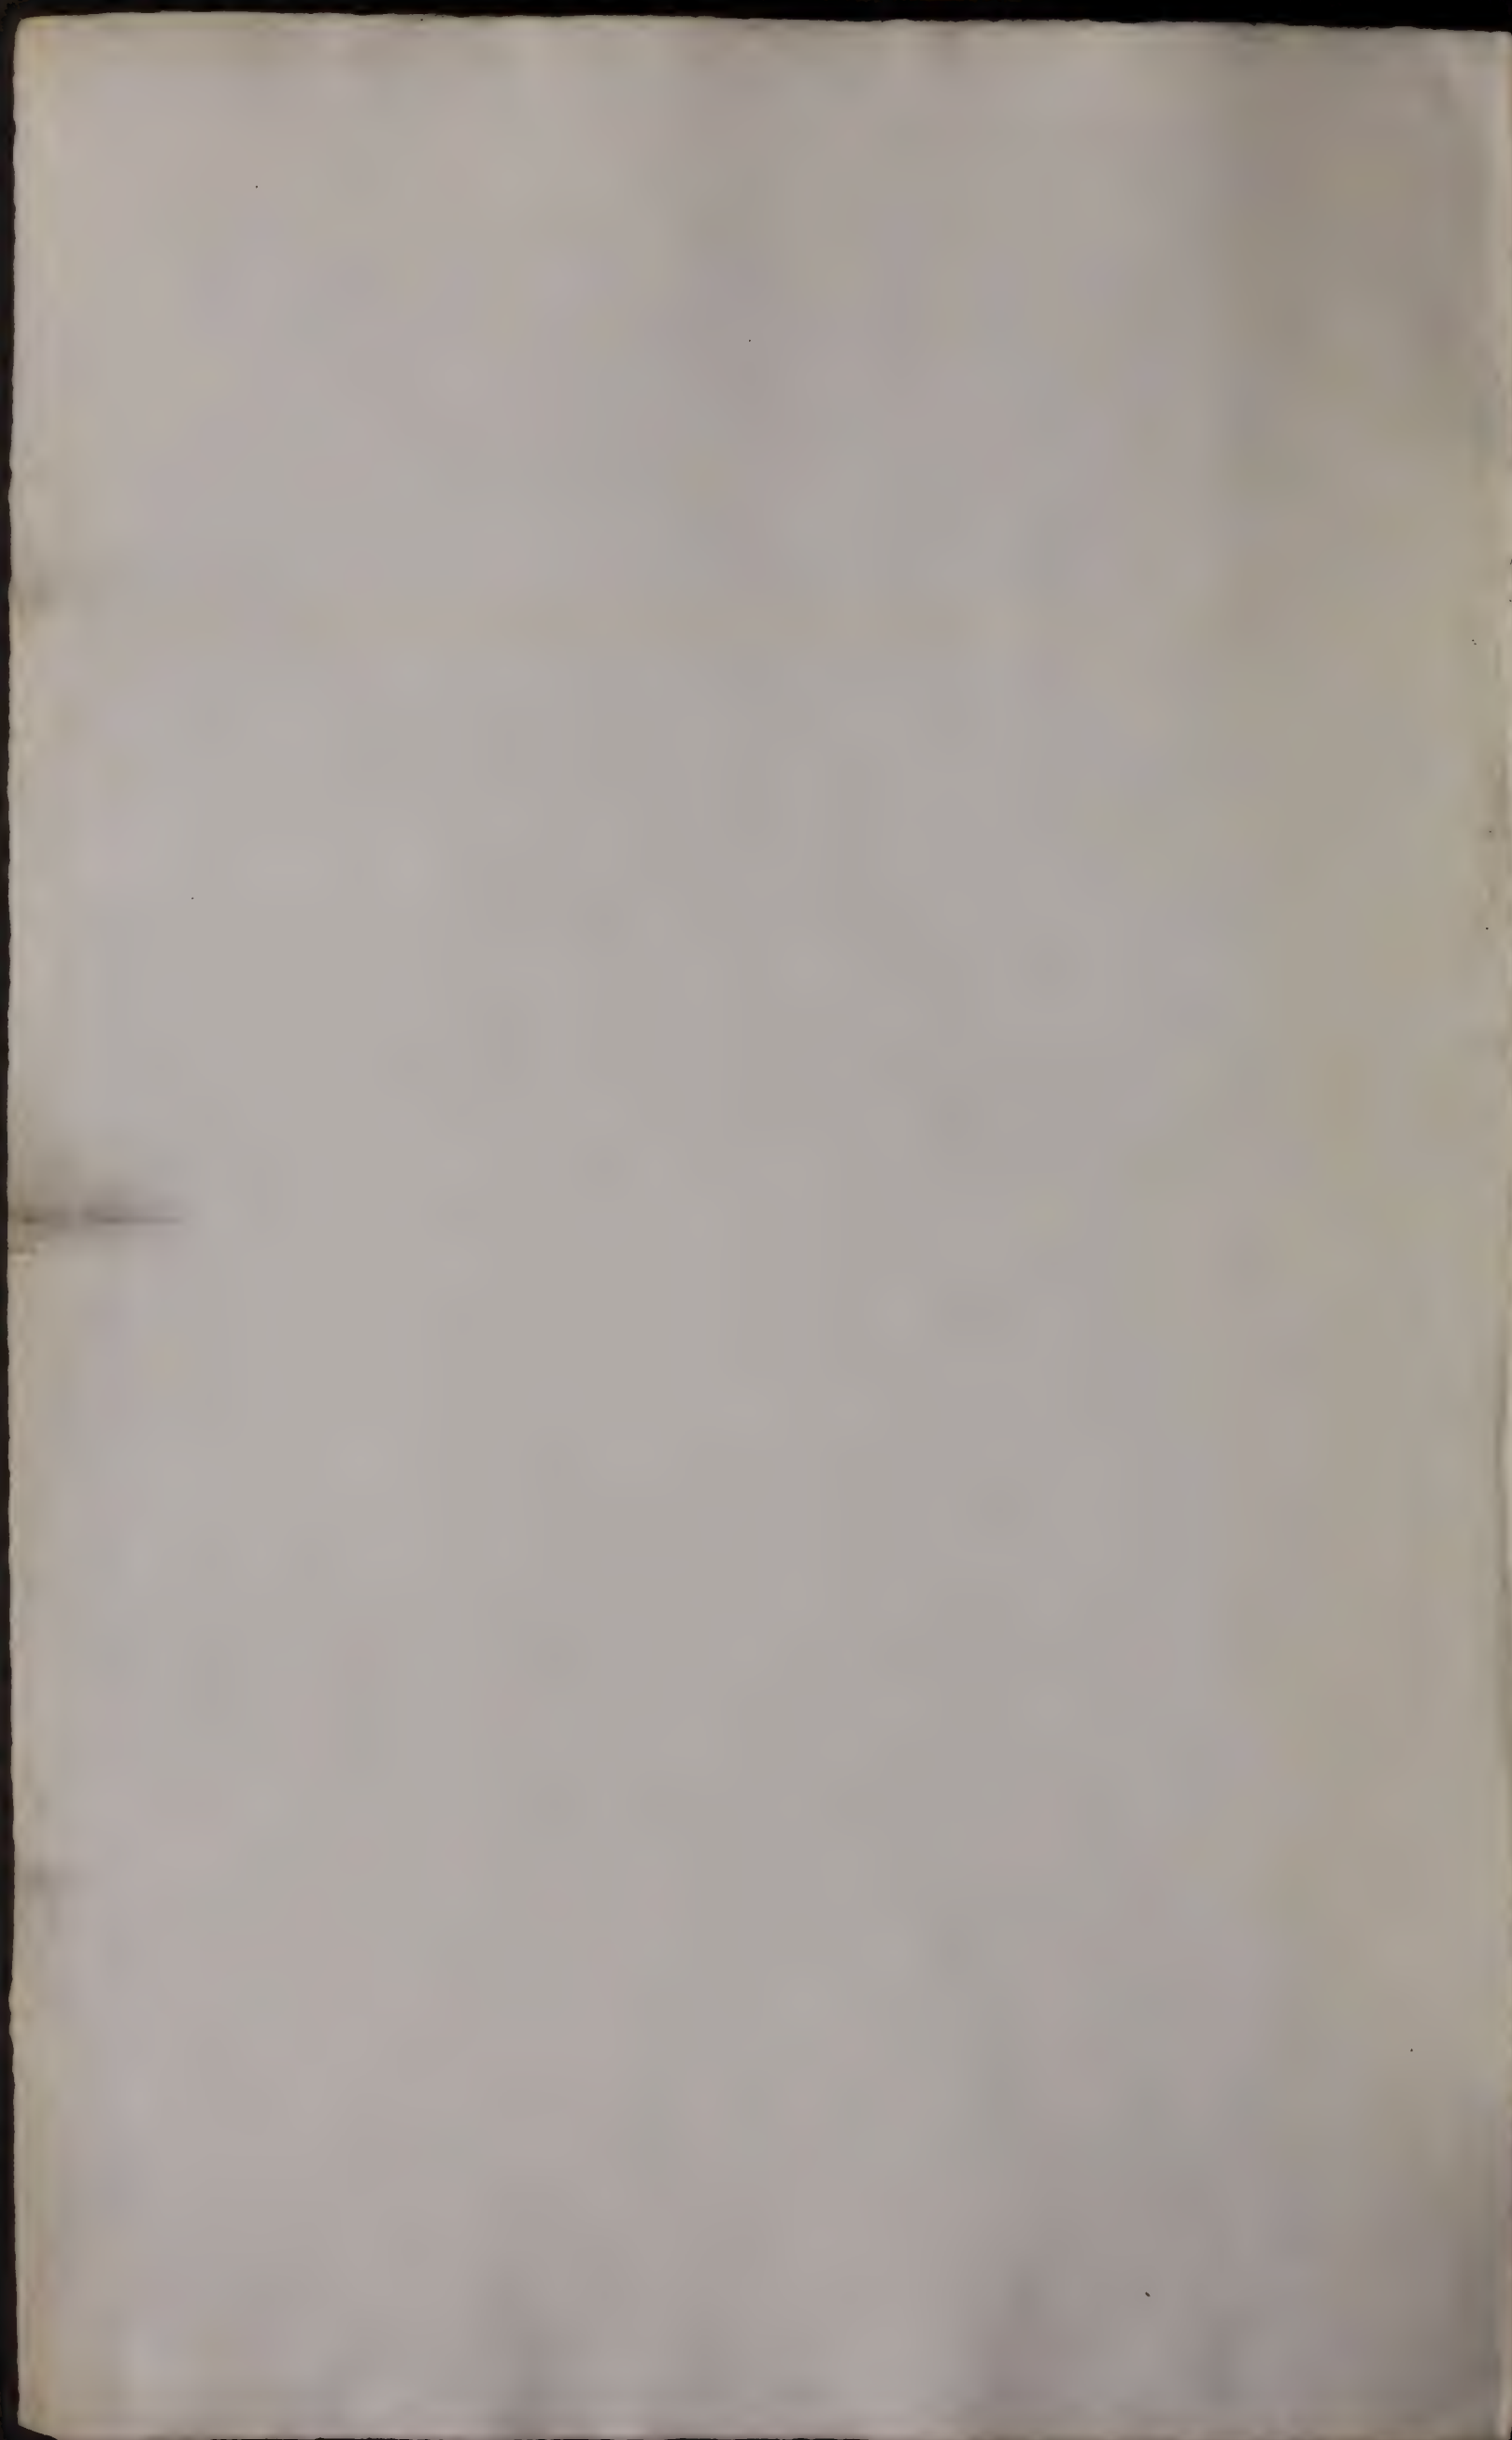

" That the salary of Alexander
" Brown as assistant in the Library and
" Museum be increased from Two hundred
" dollars to Three hundred dollars per
" annum and that such increase do take
" effect after 1st April next "

I have the honor to be, Sir,

Your obedient servant

D. Buchan, Esq.
Clerk

Thomas M. G.
Registrar.

Toronto

July 4th 1863

My Dear Sir

In reply to your favor of yesterday I would state that before going out of town last week I called at your office in reference to the "Prince's Prize", but unfortunately you had just left, and I was unable either to wait or return at the proper hour at which I was informed you would be back. I hasten therefore to reply as I fear that the delay may possibly have interfered with the monthly accounts.

Until receiving your statement I was under the impression, in common with Dr. McLean, Mr. Wilson and the members of the Committee that we had \$40 in per cent. to be upon. This was the opinion, also, of Mr. Laughton, my predecessor, who attended the Committee meeting in June 1861 and took an active part in our deliberations. It never occurred to any one member of the Committee that the amount would or could be less than \$40. or 6% on the sum appropriated; and I regret to find that the Directors, representing the appropriation only yield 5%. As the Directors will pay me on 5th July 1864 no doubt you will have an opportunity in the interval of purchasing securities which will yield the

General
St. John
Hon. W. H. H. H.
Prince George
Sept. 11/1871.

(21)

(17)

Account contemplated viz 6%. This however, does not meet your enquiry as to the account reductions of \$32.69, and I candidly confess that I can see no other alternative than to debit the Fund with that sum. It is true that probably it might be charged against the Current Expenditure as an item connected with the charges for Prizes and Medals, but you might not approve of this mode of entry. Revising the accounts and I can therefore only register the suggestion.

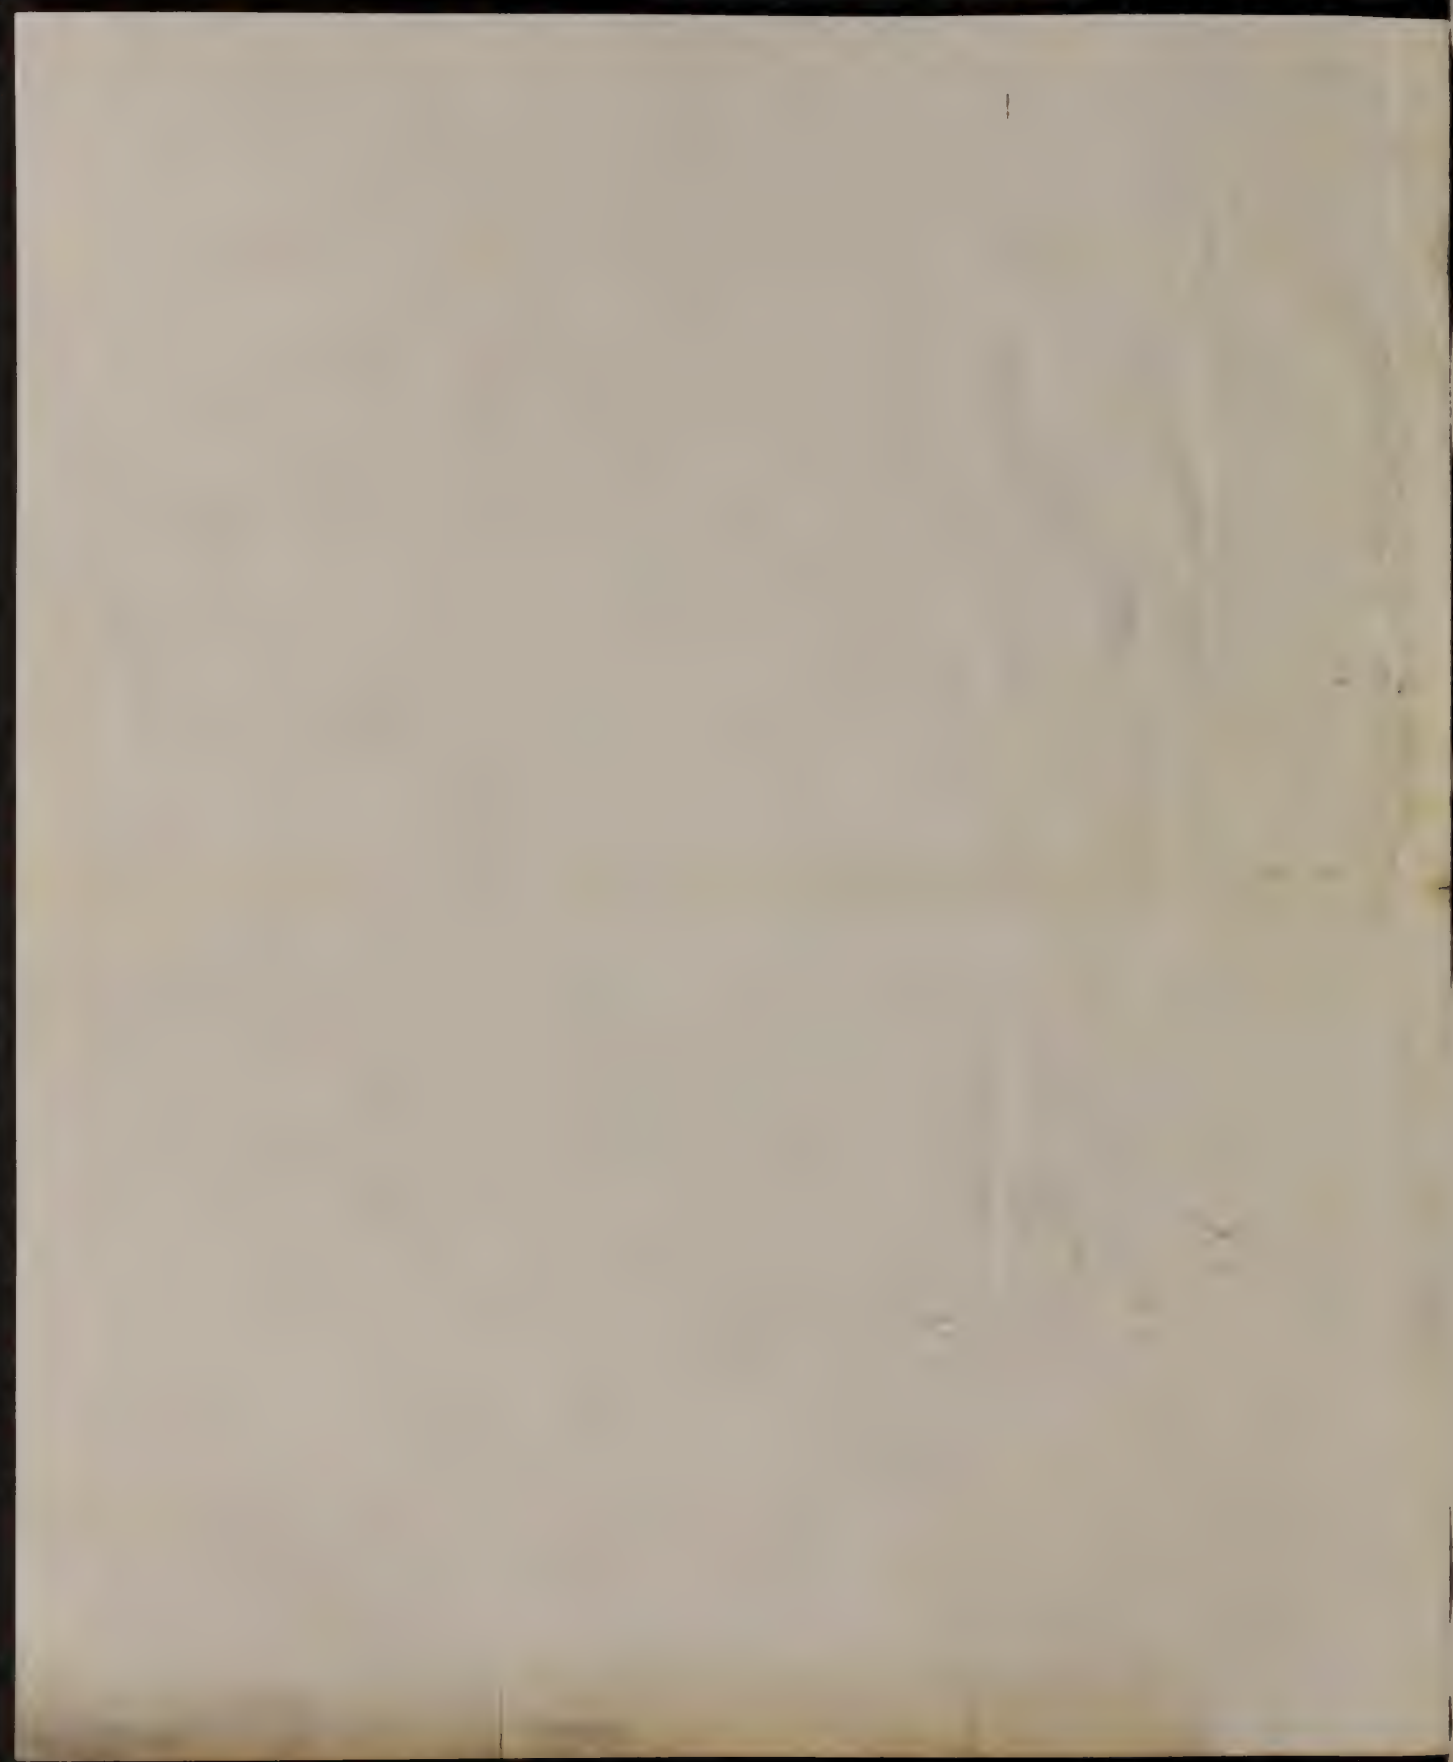

If then you see no objection to charging the deficiency a/c Current Expenditure, pray do so, and I will take care that the account named, after crediting share of \$16. Discount, is not exceeded in 1864 - the sum then available as I understand will be \$45. =

I remain, My Dear Sir,
Yours faithfully

Thos. Babington

Dr. & Messrs. Esq.
Messrs. Esq. Messrs.
Messrs.

Quebec 24th April 1863.

Sir

I have the honour to bring to your favourable notice that somewhere about the year 1848. Two lots of land were purchased by Mr. George Ridout of Toronto from the University of Toronto that Bonds securing payment for the same were signed by His brother the late Thomas Gibbs Ridout then Cashier of the Bank of Upper Canada: that the said lots have not been paid for, and that Mr. George Ridout being Insolvent and Mr. Thomas Gibbs Ridout having died, / the Estate of the latter being quite insufficient for the support of his family / the Widow as Executrix is now the subject of a suit for the debt, amounting as I believe to about £500 Gg. and which sum she is entirely unable to pay.

At her request and on her behalf

The Hon.

The Provincial Secretary -
Quebec.

I

I now respectfully pray that taking the
 circumstances of the case into consideration
 and having regard to the inability of
 the widow to make payment - His Excellency
 the Governor General in Council may
 be pleased to authorize the authorities
 of the University of Toronto to take back the
 lots in question, and to release Mrs. Bidart
 & the estate of her deceased husband
 from the conditions of the Bond referred
 to.

I have the honour to be

Secretary's Office,

Quebec, 11th July

1863.

Sir,

I have the honour, by command of
His Excellency the Governor General, to enclose,
herewith, a copy of a letter fr^m Cumberland
of Toronto.

I am directed by His Excellency to
request that you will transmit to me, for
his information, a full report upon the
case referred to in the letter, setting forth the
original purchase, the value of the land
and the probable means of enforcing the
payment of the purchase money. You will
also state what course would be in your
opinion most conducive to the interests of
the community, and whether, if so
deemed expedient, the land in question
could be resumed without difficulty as

David Buchan Esq^r

27
In a Report from the Hon. the Receiver General, dated the 10th Instant, stating that representations have been made by Petitions of the Chancellor, Vice Chancellor, Senate of the University of Toronto, and by Reports of the Bursar of the University College, that the expenses of the Bursar's office and number of persons employed therein are much greater than is necessary for the proper performance of the duties connected therewith, - and that the whole expenditures connected with these Institutions is largely in excess of the Income Fund, thereby absorbing the Capital of the Fund from which the University College and Upper Canada College are sustained.

That it is also shewn by the Bursar's Report that the business of that office has very much diminished within the last few years, in consequence of the lands belonging to the endowment having been mostly disposed of, and the Building operations connected with the University having been brought to a close.

That in view of these facts, and of the recommendation in regard to the Personnel of the Staff, contained in the Bursar's Report & documents attached thereto, the Receiver General recommends that the services of W. Cameron, the Cashier, and Mr. Nation the Assistant Clerk be dispensed with, and that they be paid their
their

their salaries at the end of the current year and further that the salary of Mr. Morrow, the messenger, be reduced from four hundred to three hundred and twenty dollars per annum, the latter to take effect from the 1st January next.

That the expenses of the Bureau's office, as the staff is now constituted for salaries is _____ \$7670
 under the proposed arrangement it would be _____ \$4750
 effecting a reduction of - \$2920.
 per annum.

The committee advise that the recommendations of the Receiver General be approved and acted on.

Testified.

Copy of a Report of a Committee of the Honorable
the EXECUTIVE COUNCIL, approved by His
Excellency the Governor General in Council
on the 11th September 1863.

On a Memorandum from
the Hon^{ble} the Receiver General
stating that on reference to the
Application of The Hon. J. H. Cameron,
on behalf of Allan Cameron, Esquire,
whose services in the Office of the
Bursar of the Toronto University were
dispensed with, by Order in Council
of the 11th August last, he recommends
that, in consideration of Mr. Cameron's
long period of Service, he be paid one
year's Salary from the date of said
Order in Council instead of to the
end of the year, as provided therein.

The Committee advise
that the recommendation of the
Receiver General, be approved.

as to Boarding house
accounts & payments to
D Barrett

Enclosed fol 316

Toronto

Dec: 9 1863

My Dear Sir

I find that a statement
of 30 Decr/61 similar to that
which you have kindly furnished
would enable the Committee this
Evg. to arrive at a perfect under-
standing of the position of this
claim of D Barrett. After
seeing this yesterday the Principal
informed me that Dr. McKim
had stated to him when morning
in the matter of the \$360 claimed
by D Barrett as a surplus by
debiting the Corps with assets.
Due by Chappin & Dr. McKim (\$360) that
D Barrett had been paid, as
he understood, \$116 from this
last year on acct of such surplus.

May I then trespass
upon you in this as to ask
for a statement ending 30 Decr
'61? and would you accompany
same by a note stating the
last sum paid to D Barrett?

such alleged surplus and
when paid.

As Mr. Fairbanks has
promised to attend this 20th.
I am anxious that he should
be made acquainted with all
the facts of the case. He is
a member of the Committee
of the Committee as such
will have to report to the Senate
at its next meeting.

Very respectfully
Yours truly
J. A. Peterson

July 18 1864

With reference to your letter of the 17th July last, I have the honour to transmit to you herewith a copy of a Memorial from Mrs. Matilda Ridout of Toronto renewing the application made on her behalf by Mr. J. W. Cumberland of which a copy was sent to you, in my letter of the 11th of that month.

His Excellency desires me to request that you will state for his information whether in your opinion there are any statements contained in Mrs. Ridout's Memorial which would justify His Excellency in Council in reversing the decision which has already been arrived at in the matter, adverse to the request preferred by the Memorialist.

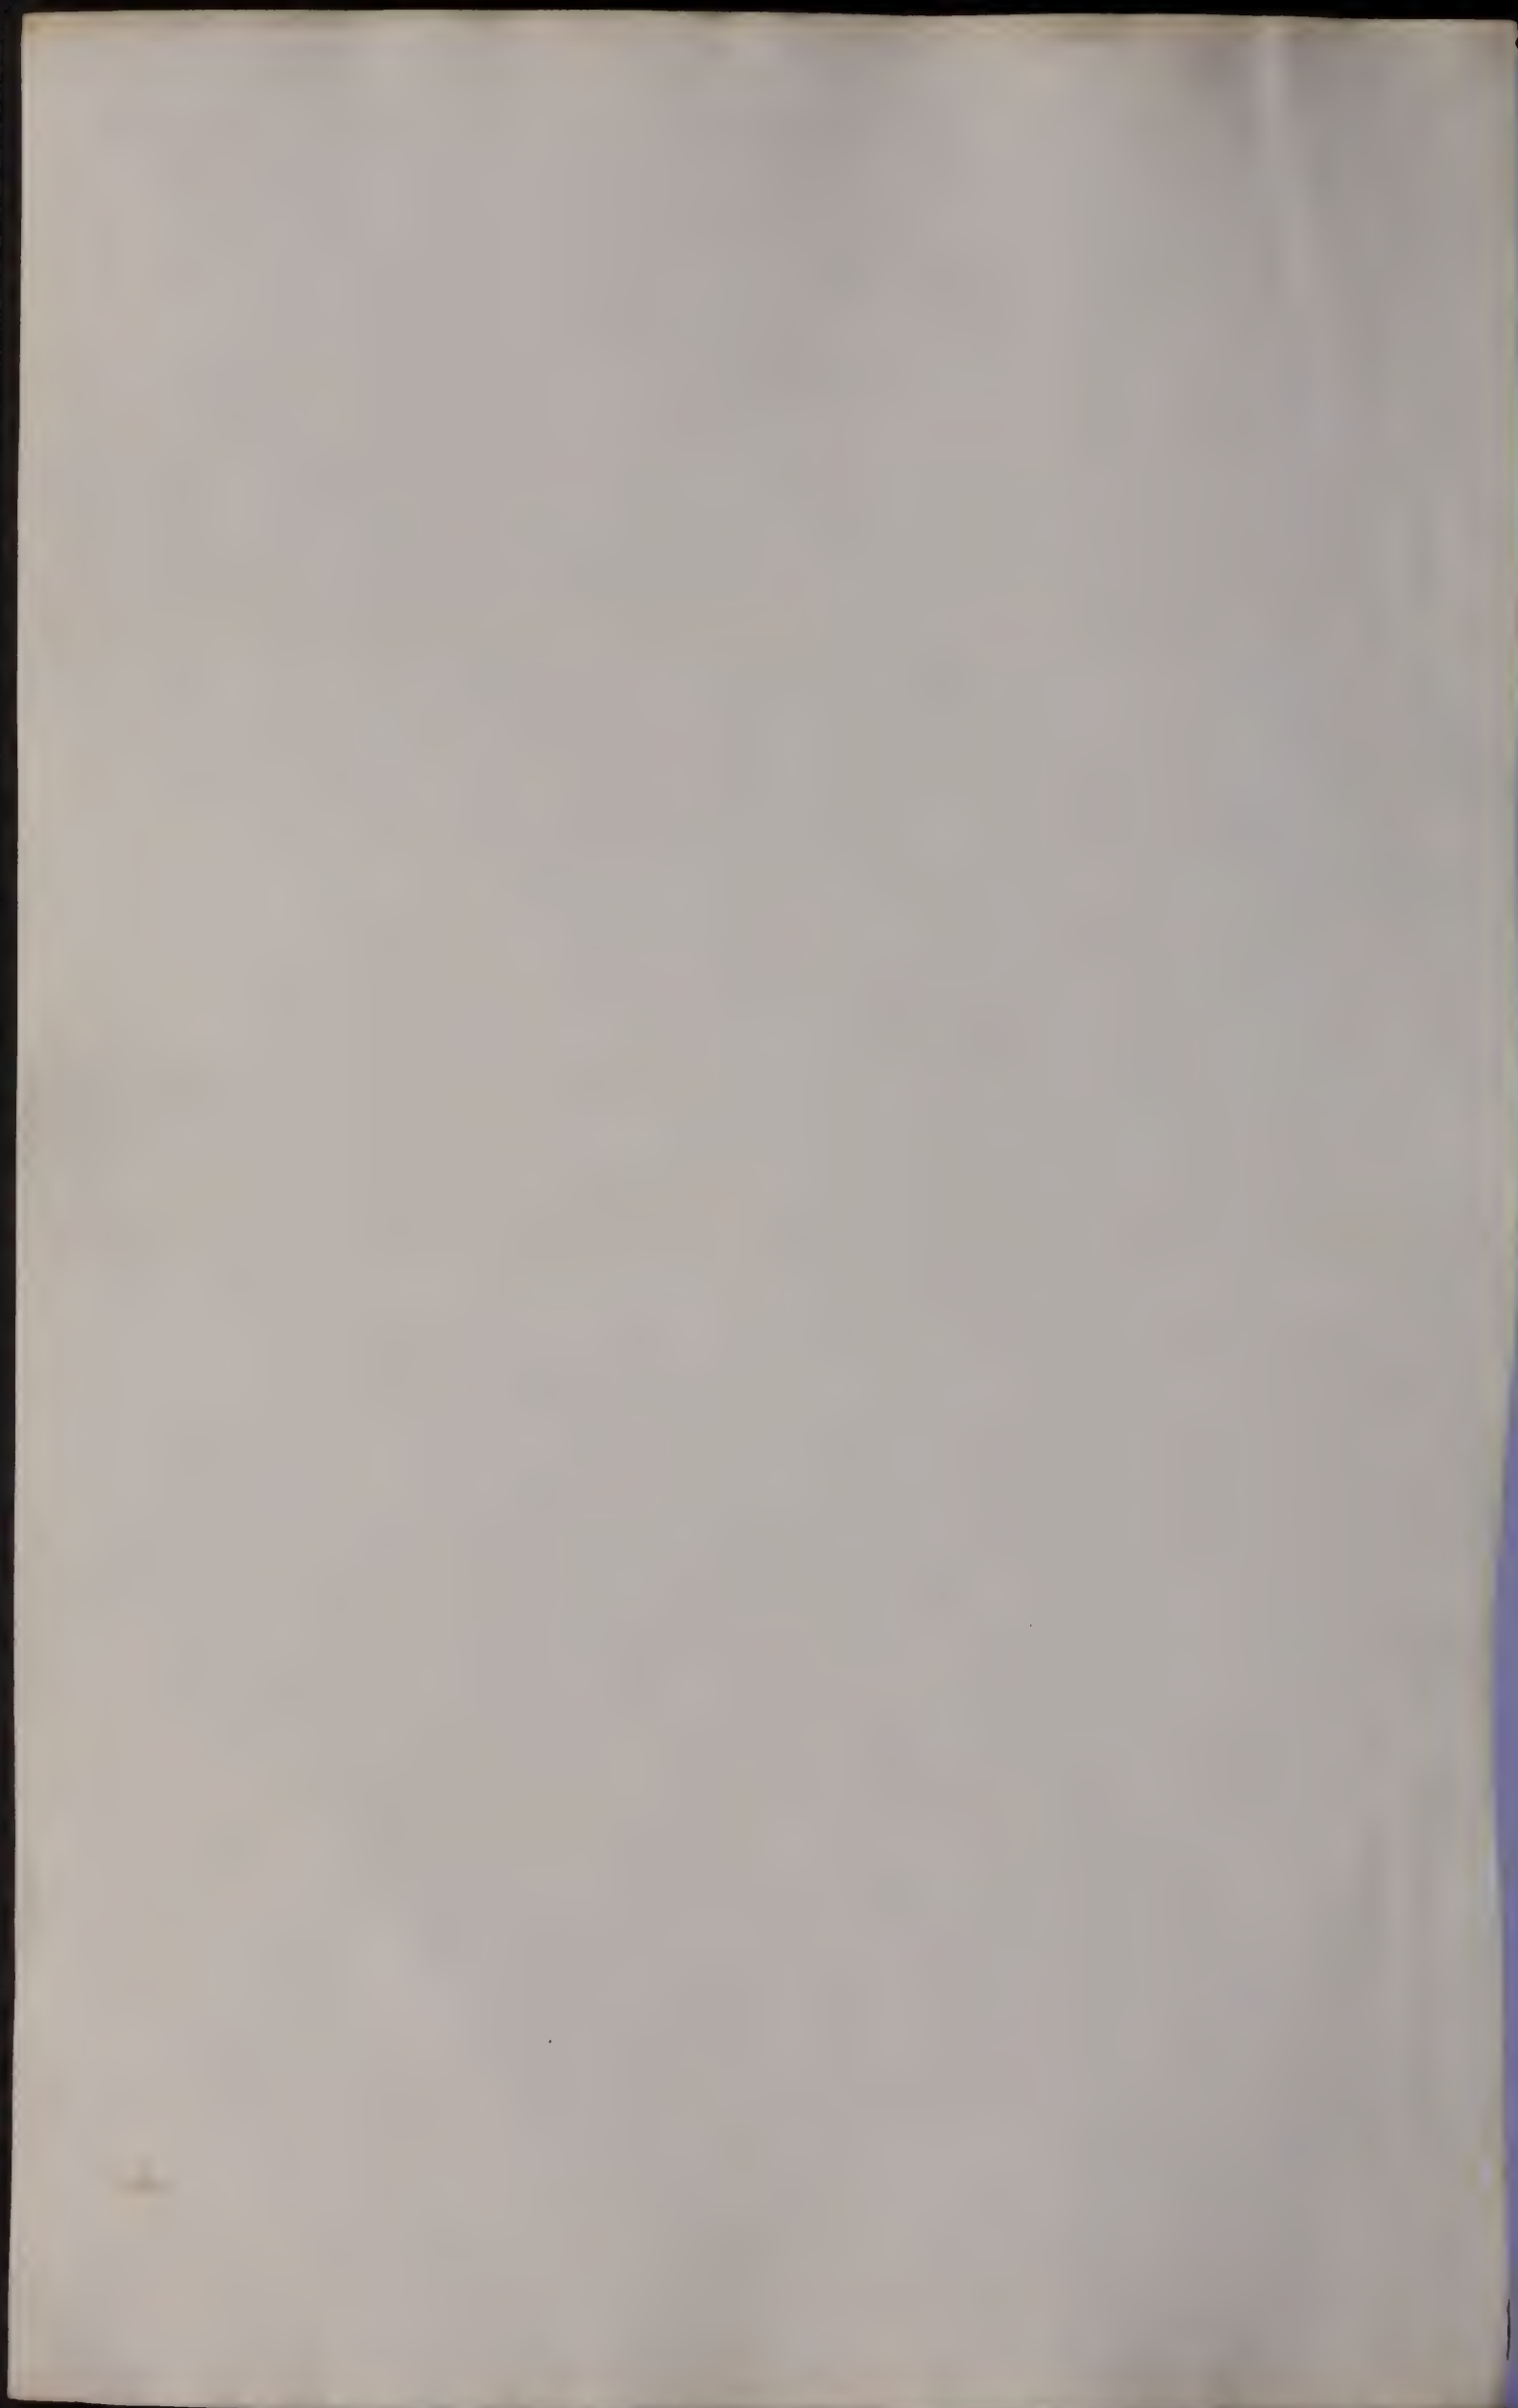

I have the honour to be

(Copy.)

31

To His Excellency the Right
Honorable Charles Stanley
Viscount Monck Governor
General and Commander
in Chief &c &c &c —

The Memorial of Matilda
Ridout of the City of Toronto
widow.

Humbly sheweth.

1. That in the year 1848 Mr George
Ridout purchased certain land
in the City of Toronto from the
University, and that your Memorialist's
Husband, the late Thomas Gibbs
Ridout entered into Bonds securing
payment for the same.

2. That certain payments were
then and have since been made
upon the said purchase but a
balance being still owing, and
the said George Ridout having
become insolvent recourse has
been taken against your Memorial-
ist, a Judgment recorded and
execution is now threatened.

3. That the land in question is
situate in the best part of the
City of Toronto, has greatly im-
proved in value since 1848, has
for years been available to the
University, and if reclaimed
might long since have been
sold by that Institution for
more than the amount due
upon it. That as your Memorialist
is informed and believes it is at
this moment more saleable and
of

of higher value than anything pertaining to the remnant of her late Husband's Estate now proposed to be sacrificed and upon which alone she has to depend to meet pressing liabilities and the support of eight children.

4. That it is by reason of the neglect of the Authorities of the University to collect the debt from Mr George Ridout during his solvency or to re-enter upon the land when (as at any time) it would have yielded more than the original price and accumulated interest: - That your Memorialist is now in her widowhood and poverty, pressed to judgment, her small remnant of property rendered unsaleable and herself and children threatened to be deprived of their home and all this your Memorialist humbly submits because the authorities of the University seem to prefer the tortuous costly and cruel course of seizing under a Sheriff's judgment the widows' and orphans' pittance rather than the simple remedy of annulling the original sale made to Mr George Ridout and selling their own lands.

5. Your Memorialist refers with confidence to the testimony of Your Excellency's advisers to bear witness that throughout a long life during which he was universally respected throughout the Province her late Husband was engaged in works of great public usefulness and in kindly offices towards all within the sphere of his active benevolence, and she humbly but urgently appeals to the merciful consideration of Your Excellency in Council and

32

and on behalf of a large family suddenly and irremediably impoverished by his death to save her from the cruelty by which she is threatened and which if consummated will destroy her only and slender means of livelihood without adding anything to the resources of a wealthy Institution to the establishment and success of which her late husband largely contributed.

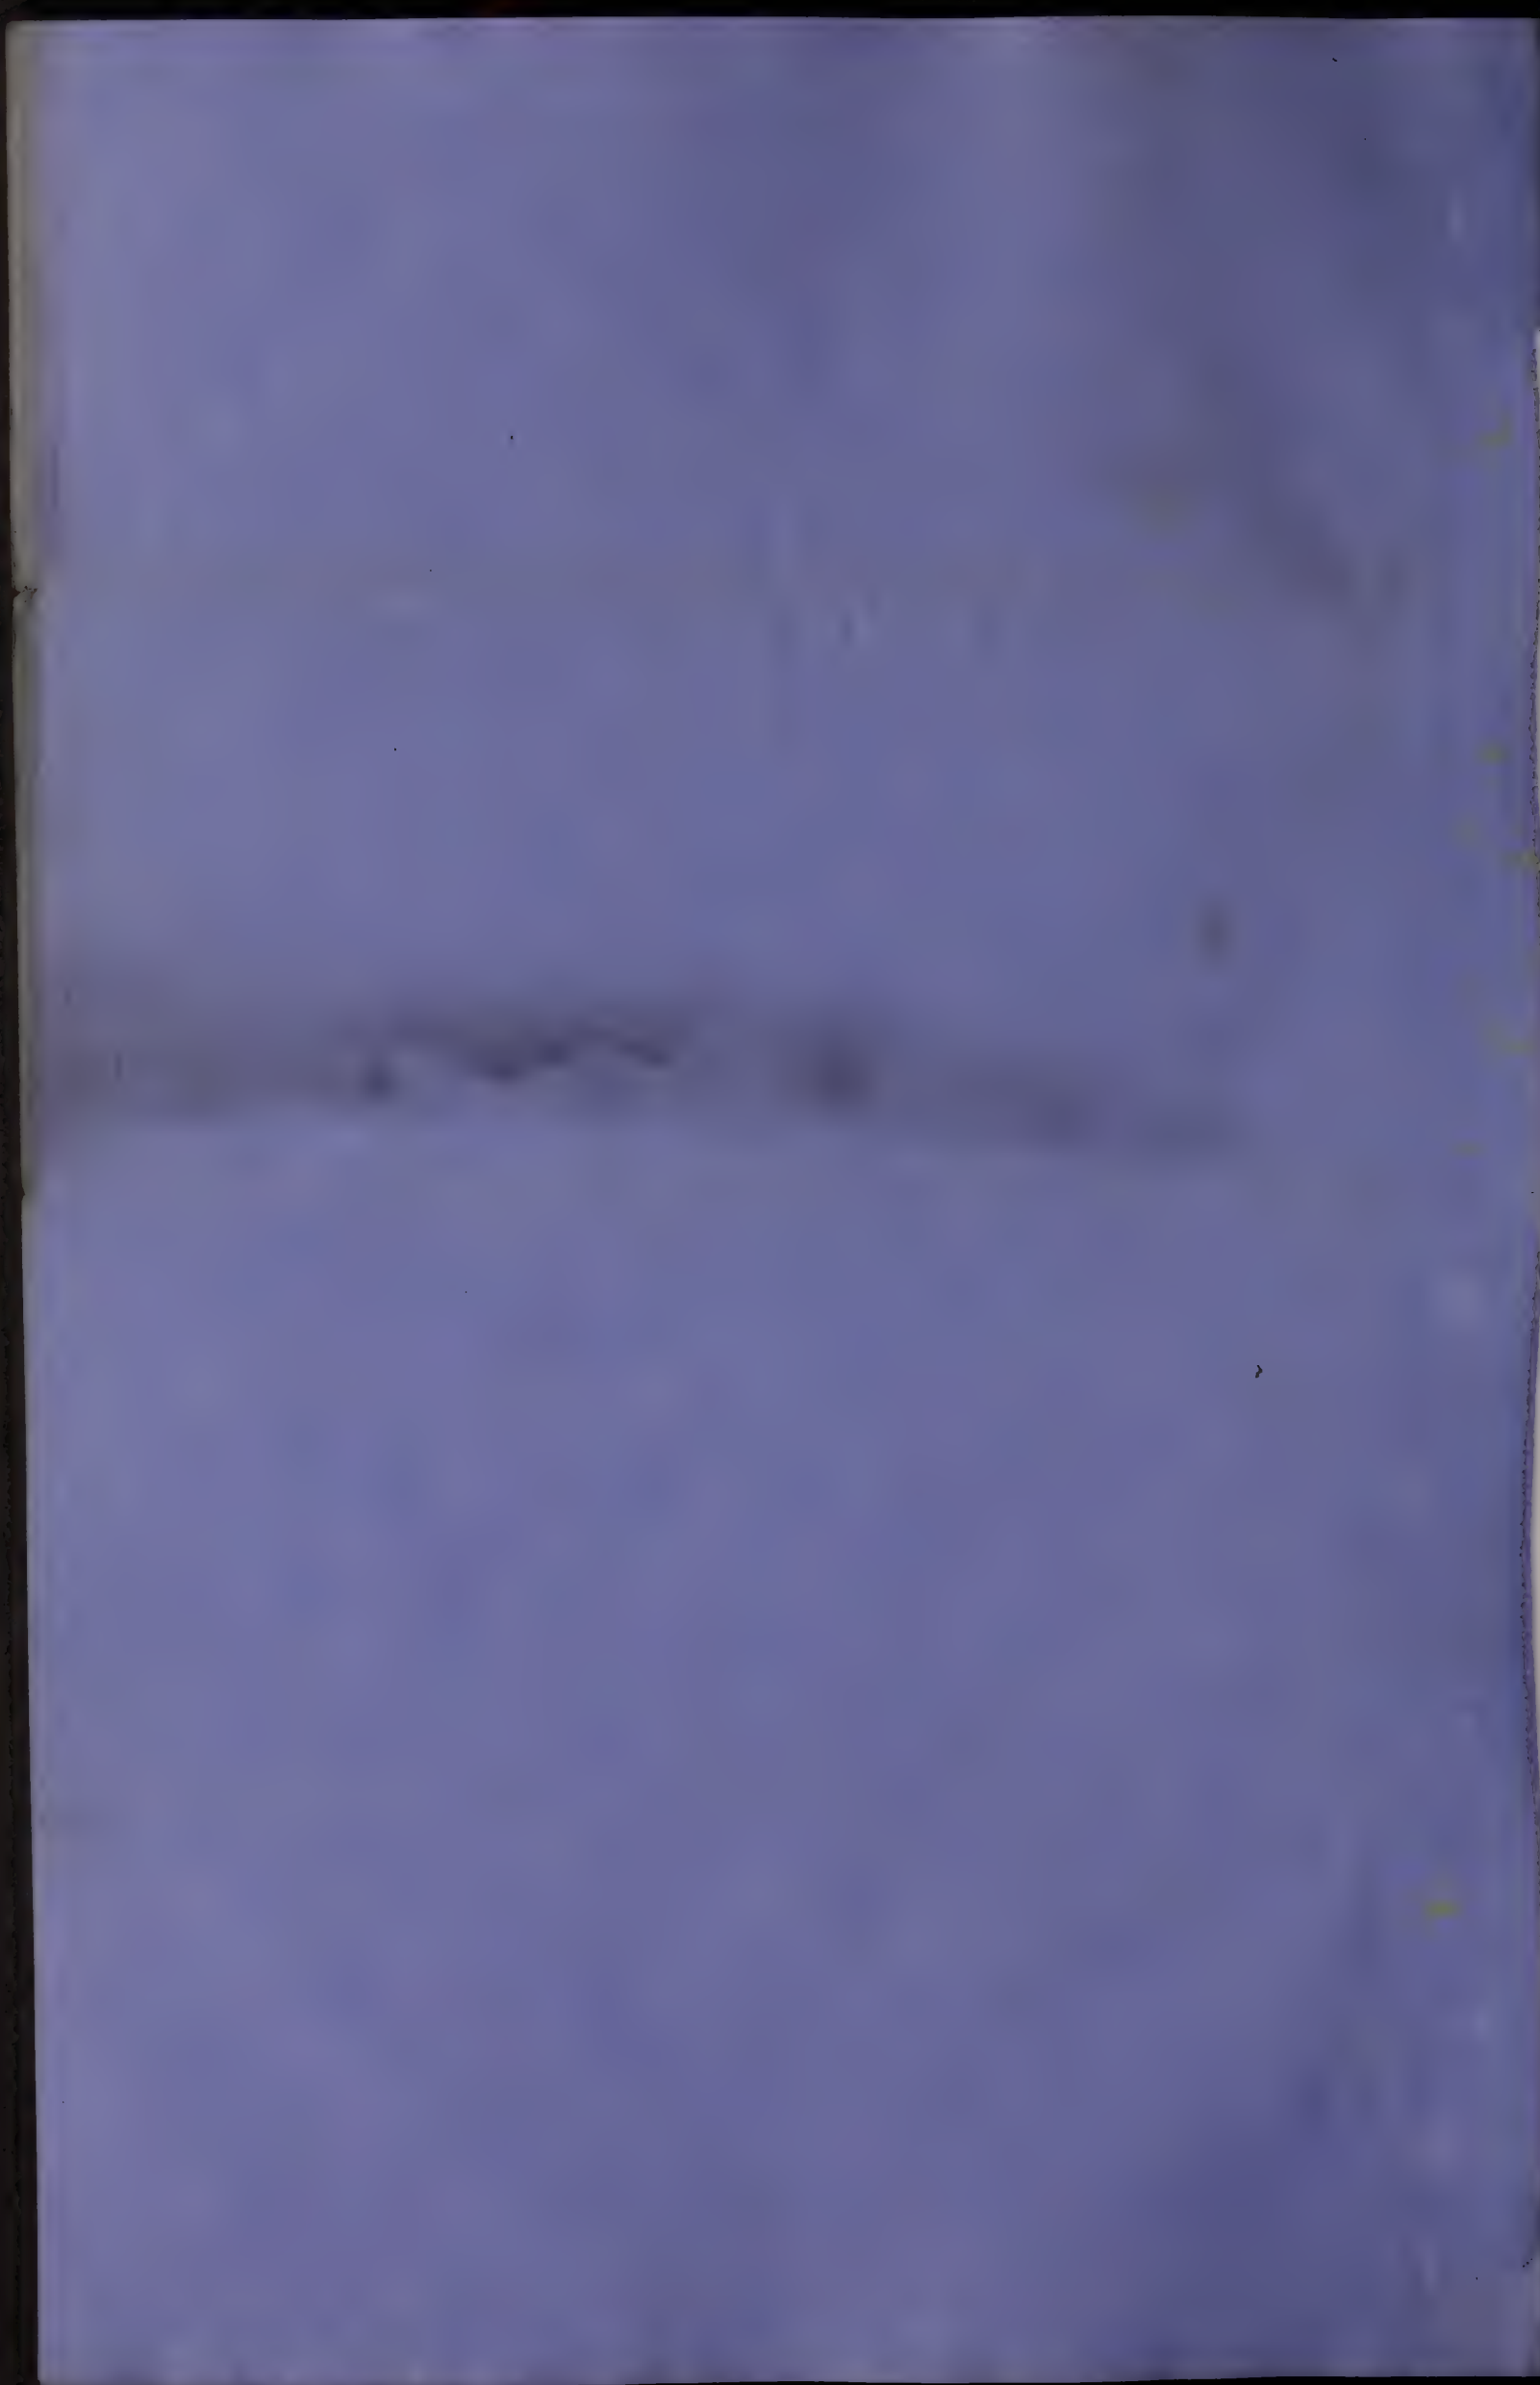

Your Memorialist therefore humbly prays that the Bond given by her late Husband as above mentioned and the Judgment obtained upon it may be released and the Authorities of the University authorized to re-enter upon the Lands in question.

And your Memorialist as in duty bound will ever pray, &c.

With copy Report by the
Senate financial Com-

Encl. & fol 292

University of Toronto.
August 14/84.

My dear Sir,

(48)

I enclose you a copy
of the Report of the Finan-
cial Committee. It was
made a couple of months
ago, but the Chancellor
wished to look over it
and I did not get it
back from him until a
few days since.

Yours very truly,
Thomas M. B.
D. Buchanan, Reg.
Bureau.

The Committee of the Senate of the University of Toronto to whom was referred the letter of David Buchan Esquire Bursar respecting the income and expenditure of the University beg leave to report the following

- 1 Your committee had under their consideration a statement furnished by the Bursar of the Expenditure of the University and of University College for the different years from 1859 to 1863 inclusive from which it would appear that the over draft upon the income fund taking accounts only of actual receipts and payments is the sum of \$56,293.74 but this amount includes various items of an exceptional character and which should have been charged to capital rather than income account Thus in the Expenditure of 1859 a charge against income appears of \$18,000 being a special appropriation for the outfitting of the University and of University College on entering into ^{possession of} their Buildings in that year So also the expense of erecting the observatory Cottage \$5020.30 and residence for the Director in charge amounting to \$4340 Plans of building \$1580 Interest or Bank balances accrued during the construction of the buildings \$1294.24 The items particularized amount to upwards of \$30,000 and your Committee can safely attribute at least \$40,000 of the annual Expenditure not of a normal character or as likely to occur again
- 2 Up to the year 1861 the interest on annuities on sales and which if collected would

2

to that extent have lessened any over draft on the Income fund amounted to the sum of \$34,365 40 Currency, but as there is always a certain amount of interest on sales in arrear and collectable only in some succeeding year the total amount of the sum mentioned cannot be considered as altogether applicable to discharge the over draft

3 The Bursar estimates the receipts on Income account for the present year will equal \$50,000 and your committee think that with out referring to the service hereafter mentioned for increasing the Revenue the sum of \$50,000 may be looked upon as the probable annual income for several years to come and that the expenditure may be safely regulated on that basis

4 For the year 1863 your Committee find the expenditure to have been as follows

1	University College	\$32,000.00
2	The University	11,000.00
		\$43,000.00
3	Bursars Office	9,400.00
	Total Expenditure	\$52,400.00
	Estimated income say	50,000.00
	Deficiency	2,400.00

Deduct reduction in
Expenses of Bursars office
available first or 1864

2,500.00

or for the current year your committee looks to an equalization of the expenditure with the Income

5 To bring the ~~Expenditure~~ Expenditure within low limit the Senate in the year 1859 recommended various reductions to be made so as to reduce the estimated ~~annual~~ annual Expenditure of the University from \$15,000 to \$12,600 and this was chiefly done by decreasing the Number of Scholarships by close economy especially in printing and other incidentals that expenditure is now within the sum of \$11,000 per annum

6 Your Committee however find that in the present estimated Expenditure of the University and University College there is no allowance for such additions to the Library as are imperatively demanded so that it may not fall into arrears with reference to Annual and other Publications and in many other respects the University is crippled for want of means to expend on objects by which its usefulness may be extended

7 Your committee have reason to believe that the Income fund might be relieved from payment of the salary of the Professor of Meteorology and that without diminishing the endowment of the gentleman now filling that Office that expense could be thrown upon the Provincial Government This reduction was in 1859 strongly recommended by Mr Vice Chancellor Longdon

8 The Professorship of Agriculture has been an experiment and so far it cannot be said to have answered the expectations of its foundation There is now a Provincial Board of Agriculture composed of gentlemen of experience in that particular pursuit and it may be worthy of consideration whether the interests they have in charge would not be

4

50

to better promoted by a transference to them of the duty to the Public now expected from the University of disseminating by means of Lectures or otherwise the knowledge of agriculture

9 Your Committee recommend the following reductions in the number of examiners
Viz One instead of two in Chemistry

Do	Do	Do	Mineralogy & Geology
Do	Do	Do	Natural History
Do	Do	Do	Metaphysics & Ethics
Do	Do	Do	Oriental Language

and some arrangements have also been made to lessen the expense of printing examination papers and other documents.

10 The Bursar on the Eighth of February 1862 submitted the Commission of Valuation a statement from which he estimates the Ultimate annual Income of the University when various lands now unsold are realized at the sum of \$56,418 to which he adds the rental to be derived

From the Building in the Park	38,400.00
-------------------------------	-----------

Total income	60,250.00
--------------	-----------

Your Committee finds that the Building Lots referred to would be readily leased and built upon if it were not for the objectionable feature of the stone Building being still occupied as a branch ^{Lecture} ~~Assembly~~ room. Your Committee finds that this building was taken possession of without the consent or permission of the University and that when the ^{attention of the} Government was called to it by the Bursar this occupation was only stated to be only of a temporary

51

nature it has however continued since 1858 and such occupation will continue unless the Senate urgently remonstrates with the Government for its discontinuance. The University would appear to have a fair claim for rent for this Building and at a moderate rate this would amount to about \$30,000

- 11 In addition to the Building a large portion of the Park set apart for roads and Building lots has been enclosed and is used in connection with this Branch Asylum and this enclosure prevents the Extension Northwards of the road and range of buildings lots on the East side of the Park Your Committee considers that the interest of the University require the restoration of the Building to it and Your Committee would recommend that the attention of the Government should be called to this subject in such a manner as would best ensure the early removal of the Branch Asylum

All of which is respectfully submitted

Dan Wilson

Peterborough December 9th 1864
Hon A Campbell -

Sir. University Property Port Hope
324 ^{East} side College Street
9 & 10 East side Hope Street
5. 6. 7. 8. N. of Base line -

Prior to the Railway operations which resulted so disastrously, as I consider, for Port Hope (however beneficial to the Province at large) and at a time when fancy prices for land were most extravagant everywhere, I unfortunately committed the blunder of entering into a contract with the College for the above Lots, containing about 4 acres, the price of which was to be \$2800 a sum I suppose about three times the actual value, and perhaps not that. I have paid on the agreement \$782.77, to the College and also taxes up to 1863, but being unable to pay more money, a proposition was made to Mr Buchan, the Bursar, a considerable time since, asking if I remember rightly, that I should be allowed to retain a portion of the property equal at a present value to the amount paid, and have the contract cancelled. His reply was in effect that he did not expect anything more could be done than had been ^{heretofore} done in similar cases, but the matter would have to be submitted to the "Governor General in Council" and he "would see about it when the House rose". The House has risen and sat again several times since that correspondence took place, but I believe the question has never yet been submitted, one of Mr Buchan's late letters containing the suggestion that I should approach the Council myself in the first place. Acting upon this I addressed Hon. Mr. Monro a couple of months ago who replied that he thought application should be made to the 'Senate'. This led me to write Mr Buchan

once.

once more enclosing Mr Mowat's letter,
in respect to which Mr Buchanan replies.
"I think if Mr Mowat had examined the
University Act, he would have seen that
"the Senate has nothing to do with the
"management of the property composing the
"endowment; but that it is to be managed
and administered by the Bursar, under
the orders of the Governor General in Council"

I do not ^{know} whether in addressing
you, I am doing what is right in the circum-
stances, but if not, perhaps you will favor
me by placing this letter in the hands of the
proper party, or do for me what you think
ought to be done in the premises -

I should mention that as regards
the college property there are precedents in
Port Hope for cancelling contracts upon
some conditions or other, and I have been
told ^{also} that in another place, there is at least
one precedent for returning the money, &
cancelling contract - a thing to be preferred
to even holding part of the land. I allude
to a case in which Mr R. P. Crooks, Toronto
was the purchaser, & of which the particulars
I suppose can be given by Mr Buchanan.

Yours &c

Yours abt Servt

(57)

Memorandum on the accounts
of the University and Colleges,
Upper Canada.

There is one of the accounts, which come before me for audit, which is differently situated from any other branch of the public service. All the ordinary Trust Funds derive their revenues from lands, investments, or taxes in the hands of Government, and all moneys paid to them upon warrants; but the lands and other funds of the University of Toronto are managed, under the authority of Government, by the Bursar, and the Audit Office cannot, as in other cases, restrict the expenditure, but can only report after it has been incurred. This difference creates a difficulty in the way of carrying out the provisions of the new Audit Act. The Minute of the Board of Audit of June 1 1864 laid down certain rules, defining what expenditure might be considered as authorized, and what required a vote of the Legislature; and the general principle established with

with respect to Trust Funds was, that the income could be expended by Government, or the officers authorized, but that any expenditure of capital required a vote of Parliament. The first part of the rule is clearly in accordance with the University Act. The 78th and 79th sections (Con. Stat. U.C. Cap. 62) authorize the Governor in Council to appropriate annually such portion of the Income Fund as may be necessary for the maintenance of the Institutions, or to delegate the power to expend such appropriations to the Senate of the University and the Council of University College. I am not aware that any such appropriation has ever been made, but whilst the expenses of the Bureau Office remain exclusively under the controul of Government, and the Professors in the College have been appointed, and their salaries fixed by Order in Council, the expenditure of the remainder of the income has been by implication delegated to the University and College authorities, then By Laws authorizing it having been from time to time

sanctioned by the Governor in Council. The whole of the income therefore may be considered available for expenditure, but the 76th section expressly provides that the Permanent Fund shall not be expended or diminished in any way except only in the case provided for by the 84th section, viz: the erection or improvement of Buildings. The Act gives the Governor in Council authority to sanction such expenditure, and to this extent the University Fund does not seem to come strictly under the rule laid down by the Board; but any expenditure of the Permanent Fund, other than for Buildings, clearly requires the sanction of Parliament.

But ever since 1859 the expenditure, in contravention of the provisions of the Act, has annually exceeded the income, and the over expenditure is so heavy that I think it necessary immediately to call the attention of Government to it, and to ask for instructions as to the proper method of controlling it for the future. On the 1st of January 1869

1859 the balance at the debit of the Income Fund was only \$437,81, and on the 30th June 1864 it had increased to \$60,186,61, being at the average rate of about \$11,000 per annum over expended. During the first quarter of the new financial year the balance has increased to \$65,032,51. As both the revenue and the expenditure fall unequally in the different quarters, this last deficit cannot be fairly taken as a test of the annual rate at which the endowment is being exhausted, but it shows that the process is still going on, and that to a dangerous extent.

In order to remedy this state of things, it may be thought sufficient that I should allow no further accounts of the Bursar to pass, which show an expenditure greater than the income of the year; but there are practical difficulties in the way of carrying this out. The Bursar cannot tell with any certainty what the income of the year will be till its close; and even if the income of the preceding year were taken as the basis, as nearly the half of it is derived from the interest on the purchase money of lands sold, and these payments are very

very irregularly made. The income is always fluctuating, whilst the ordinary expenditure is of a permanent character, or fluctuates under entirely different conditions from those which affect the income. It would thus happen that the necessary expenditure would in some years unavoidably exceed the income, which is contrary to law, and in others there would be a balance of income which under the law is not available to meet the fluctuations of an opposite character, but is required to be carried to the credit of an entirely different fund. The simplest way of meeting the difficulty would be to authorize an expenditure of a fixed amount based upon an average year's income and to apply the rule strictly to prevent any expenditure beyond the sum appropriated, whilst if it casually fell below the average in any year, the balance of the appropriation would be carried on ^{to} the credit of the next.

But in order to render this possible there must be a combined
action

action of the Government and
 the authorities of the University
 and of the College, for all three
 at present authorize payments
 independently of each other out of
 one common fund. For some
 years past there has been a mutual
 understanding between the
 University and the College as to the
 extent to which each may draw
 upon the Bursar but it has
 not the force of law, and as between
 them and the Government there
 has been hitherto but little
 concern such a state of things
 appears to me to lead inevitably
 to the present dangerous and
 illegal condition of the finances;
 and I think that the Government
 should not only fix a certain
 limit, to which alone the Bursar
 may expend for any purpose,
 but also, as was clearly
 contemplated by the Act, that
 it should assign a definite
 amount both to the University
 and to the College, within which
 each must confine its expenditure.
 Before any of these sums are
 fixed

fixed, it would be desirable that the Bursar, the Senate, and the Council of the College should be communicated with; but with the view of enabling the Government approximately to judge of what curtailment of the expenses is necessary, and of the different branches of the service which afford the best opportunities for retrenchment, I append an analysed statement of the receipts and expenditure of the Income Fund from 1860 to the present time, since which date the large expenses incident to the fitting up and taking possession of the new buildings having been completed, the expenditure has about reached its normal state. It will be perceived that the annual deficit has considerably diminished during the last two years, but it is still of a very formidable amount, and it appears to me to be quite impossible that the Senate and the Council of the College can make any adequate reduction to obviate it for the future, without the assistance of Government in curtailing that portion

portion of the expenditure which falls entirely within its control, and with which the authorities of the University and College have no power to interfere.

On the 1st January 1860 the balance due on lands sold would at six per cent represent an income of

	\$21,900
Add rents &c during the year	5,010
Interest on Investments (net)	24,823
Total income of endowment	51,733

On 31st December 1863 the same branches of revenue were

Interest on lands sold	17,160
Rents &c	2,761
Interest on Investments	28,131
Total income of endowment	\$48,052

Showing a falling off of income of about \$3,700 which is partly accounted for by the balance at the debit of the Income Fund having increased by \$37,000 in the interval, and partly by a considerable balance in account of the Buildings having been paid out of the Permanent Fund after the first of these dates.

The actual income from the endowments received during the years in question was

1860

(61)
1860 \$48,459

1861 48,045

1862 45,490

1863 45,403

If we take the income accrued in 1863 there is but a small prospect of an increase upon it, as on the 31st December 1863 only 16,000 acres remained unsold, which are in all probability by no means the best of the lands. It would not be safe therefore to estimate, even if any further exhaustion of the fund were stopped at once, that the income from the endowment will ever exceed \$50,000; but in the meantime the interest on instalments has fallen into arrear, and even though it may ultimately be recovered, it does not bear interest, and the available income for the next few years cannot be taken at much more than \$46,000. But the lowest amount at which the annual expenditure has been reduced is nearly \$54,000.

In this estimate of income I have left out of account one source of revenue, which is entirely dependent upon the action of the Government, but which is justly due to the University

University. By the Act 16 Vic
 Cap 159 the Government was
 authorized to take possession
 of any portion of the University
 Park (not required for Collegiate
 purposes) paying a rent of six
 per cent on the ascertained value
 of the same to the Income Fund.
 In virtue of this Act the Government
 in 1853 did take possession of the
 whole park with the Buildings on it;
 and although in 1855 the remainder
 of it was surrendered to the
 University, between 20 and 30
 acres, including the Stone Buildings
 erected out of the University funds,
 was retained by the Government.
 About five acres more, which
 had been occupied as the Governor's
 Garden, was further surrendered
 in 1859; but the rest, including
 the Building, continues still in the
 occupation of the Government, and
 no rent has ever been paid for any
 portion of the property. It is not only
 by the failure of rent, and by the
 necessity of erecting other Buildings
 on a different site that the University
 has suffered by the transaction;
 but of the ground now enclosed
 and occupied by Government, a
 part is included in the park,
 leased under an act of Parliament
 to the City & County its obligations
 to

to which the University is unable to comply with, and a part has been laid out in building lots under an Order in Council, for the leasing of which the Bursar has received many applications, which he cannot for this reason entertain. In the present financial difficulty of the University, this fact ought not to be lost sight of.

In so far as a reduction of expenditure may meet the annual deficit, that of the University has been reduced during the four years in question from more than \$16,000 to rather less than \$12,000, and under existing statutes it will barely exceed \$11,000. This however has been done at a great sacrifice, the number of scholarships (which are strongly insisted upon by the Oxford Commissioners as the most important part of a University endowment) having been reduced to an average per student far below that of the English and Irish Universities. I do not think that any material reduction can be effected in this branch of the service without seriously impairing its utility.

The

The expenditure of the College has been reduced in the four years from about \$39,000 to about \$32,000, and almost the only part of it susceptible of further reduction is the item of salaries of Professors \$25,000 over which the College Council has no controul. If any saving can be made under this head either by the reduction of the staff or by diminishing the salaries the initiative must lie with the Government itself. The College authorities have already imposed tuition fees as a means of meeting the expenditure, tuition having formerly been entirely free.

The remaining head of expenditure, which is entirely in the hands of Government, has not been at all diminished during the four years. The Bursar's office has continued annually to cost above \$8,500, the proportion of which chargeable to the University has averaged about \$6,700; for the reduction in 1863 is only apparent, the employes whose services were dispensed with in that year having been reinstated.

It is no part of my duty to suggest to Government reductions which do not fall under my own Department, but in analysing these

These accounts it is impossible to avoid being struck by the fact, that, whilst the University and College authorities during the four years have met the difficulty by a reduction of about \$11,000 in the portion of the expenditure over which they have any control, in part arising from some expenses for outfit occurring only in the earlier years, but to a great extent from real retrenchment, the Government has done nothing towards reducing the much larger portion with which it alone can deal. I may also remark that the reduction has been exclusively made in the educational expenditure - the object of the endowment - whilst the mere management of the fund remains unaltered - an average expenditure of \$10,000 to manage an income of \$46,000 appears a very high percentage; but if we consider that almost the whole of the land has now been sold and that the receiving and expending the interest on capital invested involves little trouble and expense, it would be more proper to say that it costs nearly \$10,000 to manage and collect an income from lands of not quite \$20,000.

The details of the readjustment of the accounts must receive the consideration

consideration of the several parties interested, but I would suggest an approximate apportionment, which might probably be found practicable

University expenditure (exclusive of matriculation and graduation fees) \$10,000

College expenditure (exclusive of tuition fees) 30,000

Management (exclusive of refunds) 6,000

Total average income \$46,000.

I have also appended a similar statement of the Receipts and Expenditure of Upper Canada College for the same period. The means of controuling the expenditure are subject to the same difficulties, but the condition and prospects of the College are more encouraging. The annual deficit to which it was subject has alone disappeared, and the income of the endowment has increased from \$11,800 to \$13,800, whilst the ordinary expenditure has remained almost stationary. It would be desirable in the case

(64)
case also to limit the expenditure,
which the Bursar might be
authorized to make, to the
average income, exclusive of
fees - say \$12,000 or \$12,500
viz:

6% on amount due on lands sold
\$6,974

Rents

585

Interest on Investments

5,125

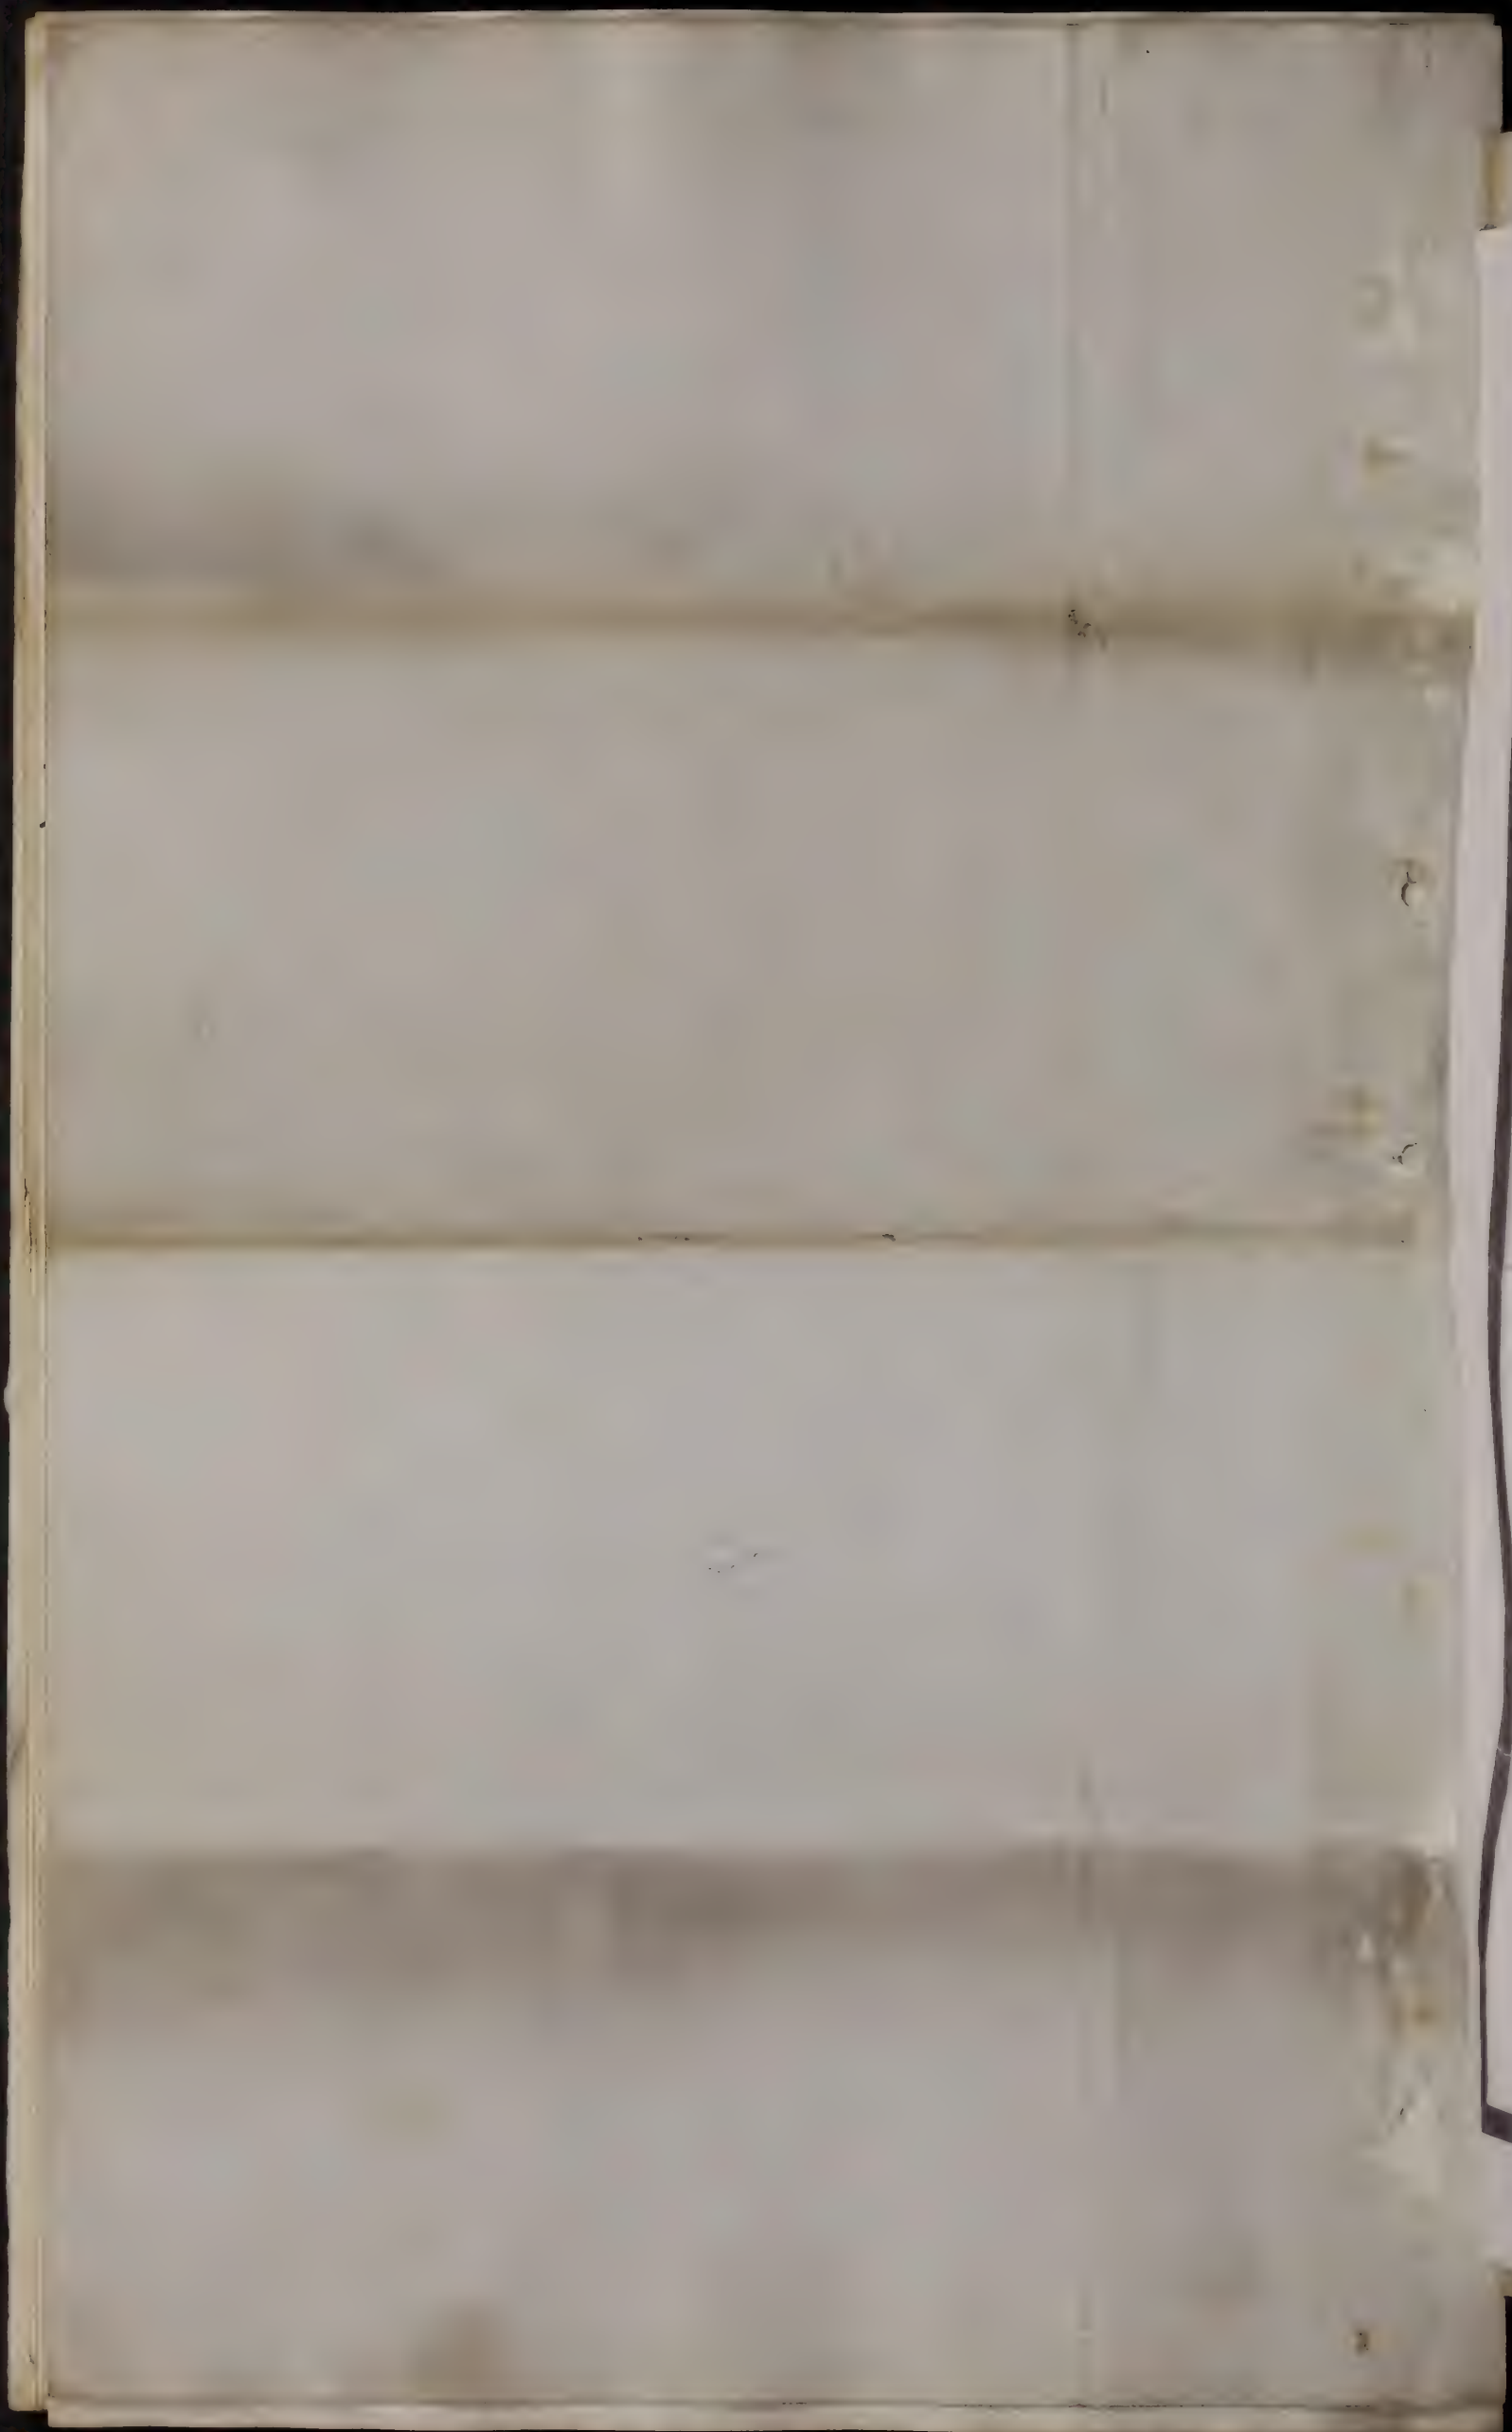

Total Revenue from Endowment 12,684

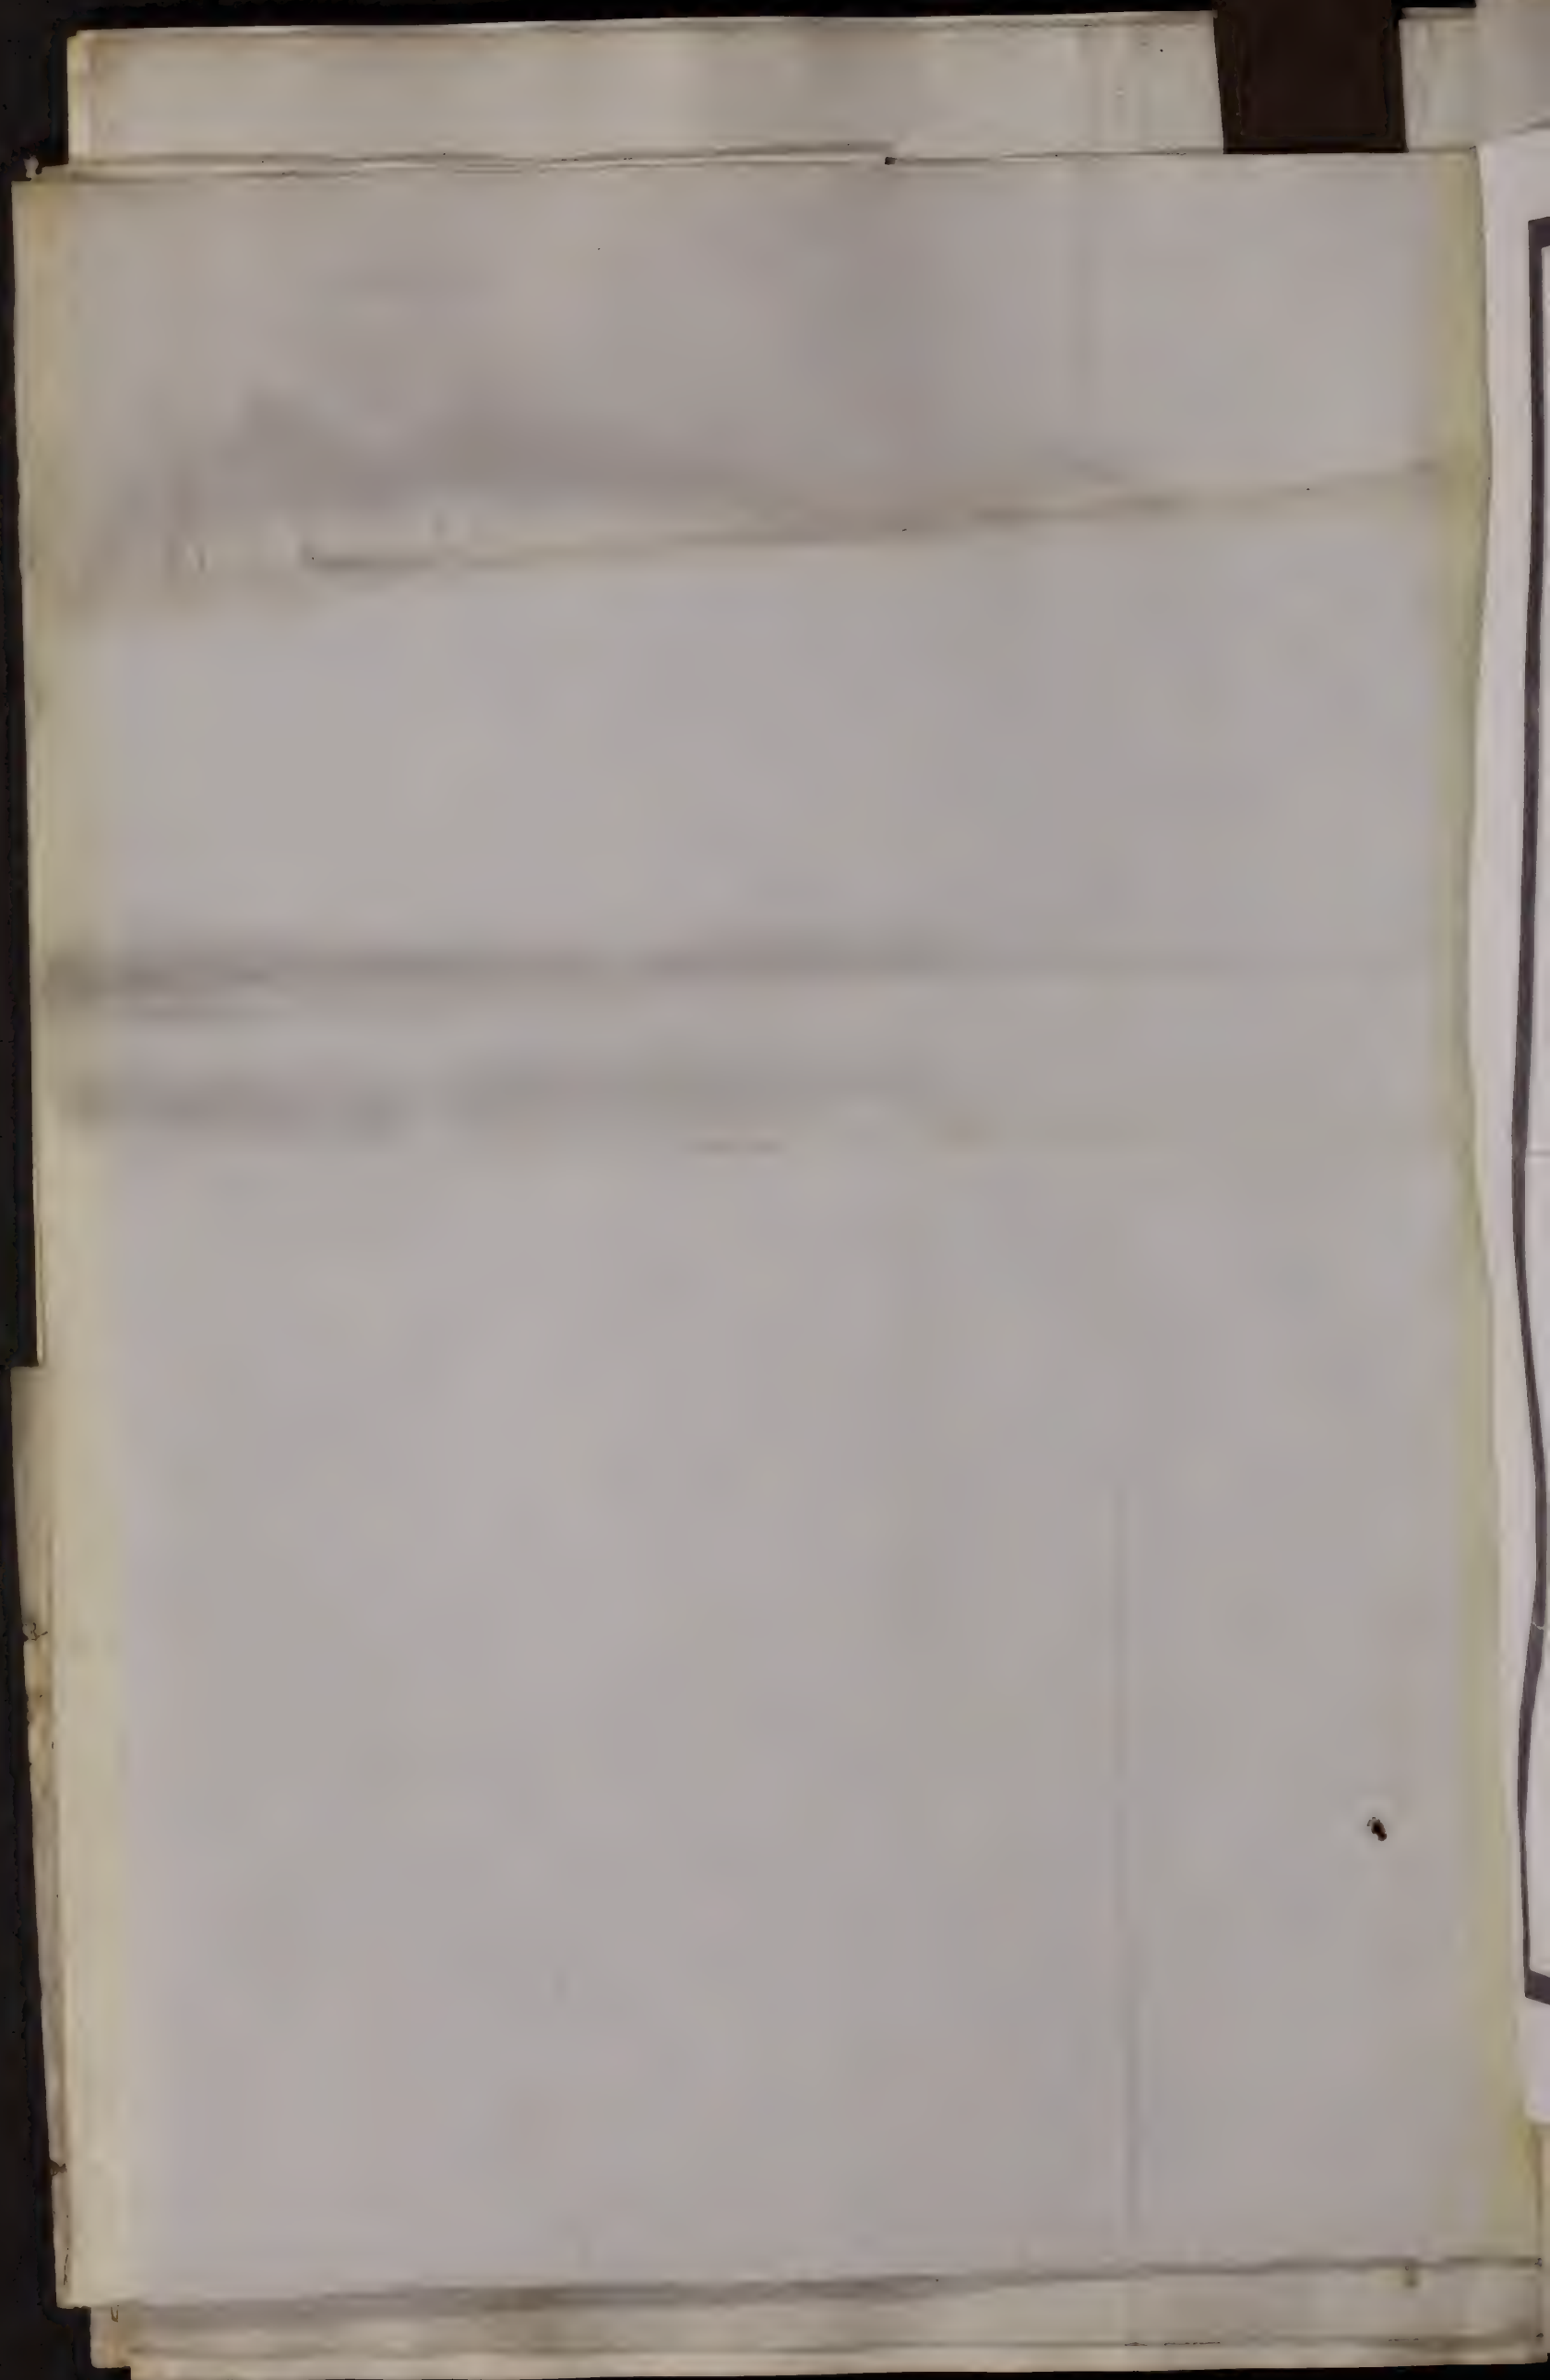

I would further recommend
that, in accordance with the
12th Section of the Audit Act of
1864, the Bursar be instructed
to make his financial year
correspond with that of the
Province.

(Signed) John Langton

Auditor

January 16th 1865.

My dear Sir
I have forwarded the lease executed
the Corporation of the City, & have made
a short abstract of it for future
reference. I see that the rights of the
Corporation has not been done, but I suppose
there is no more risk running for
existing in the agreement. However
the question is an important one
for if the opening of private ports
by the Corporation of the City is the problem
side of the revenue is not affected

in service, being acceptable will
bring a heavy one, I then sent the
the Bureau on Oct. 10th 1864, I
forwarded it, I observed that had
of the letters with this printed
between this sets with the Bureau
the Inspector should give in with
to, with a request to have paper
etc. to be to show these sets.
the defects of the Inspector's duty
this, I so violating one of the
objections of the Bureau, the

My dear Sir,

I think it probable you may find on record in your office the transactions of the late Colonel the Honorable Thomas Galt as the Agent of the Board of Education for the sale of Grammar School Lands in the Western part of the Province. If so I should be obliged by your ascertaining whether there is any trace of £48.14 paid by Patrick O'Neill on account of the North half of lot N. 10 N S Road in the Township of Southwold. Of this payment no mention appears to be made in a re-

you. I am aware that one or two persons have lately built small houses facing the Avenue apparently intending to use it as their general entrance as from a street. Now I am as anxious to prevent as any one can be. But should a private conditionally granted to me and enjoyed without the shadow of inquiry come to any one for inquiry a secretary for abstract. by withdrawal from me because others choose to do acts calculated to injure the Avenue. Several Gallunien living on Williams doors have submitted garden doors. Mr. Kington the Avenue and Mr. Howland. Mr. Hector. Mr. Beatty & Co. It is not contemplated that such doors need only in summer purpose the Avenue in any

way. In fact their existence is rather a protection to the part of the Avenue in which they are situated than otherwise. We are all willing that ~~the~~ the doors should be kept wholly closed during the winter months in the year.

This proceeding, if approved, would actually stop the use of the Avenue as a general front or other entrance to a residence.

May I request that you will communicate to the latter may make such an arrangement with the Corporation as respecting these doors as will fully protect them not seriously annoy and inconvenience such a lot of residents as I am. Some of whom have opened large doors the idea of

of the burning of the state & with some

his friends, if it should be

fit - as if used with the destroyer

of the Avenue. I will send you

John Hagar's letter.

Yours truly,

Wm. J. Hagar

Paul Hagar Esq

Boston,

University of Toronto

My dear Sir,

April 3. 1865

I have received your letter of the 28th

and in reply to inform you of the

action of the Board of Trustees, which

has been taken, I am sorry to

adverse the result (this is the case)

of the Corporation of the City. However, all

entances with the Avenue, which

have been made in existence, at the

time the lease was granted to the

Corporation of the City, should not

Sir,

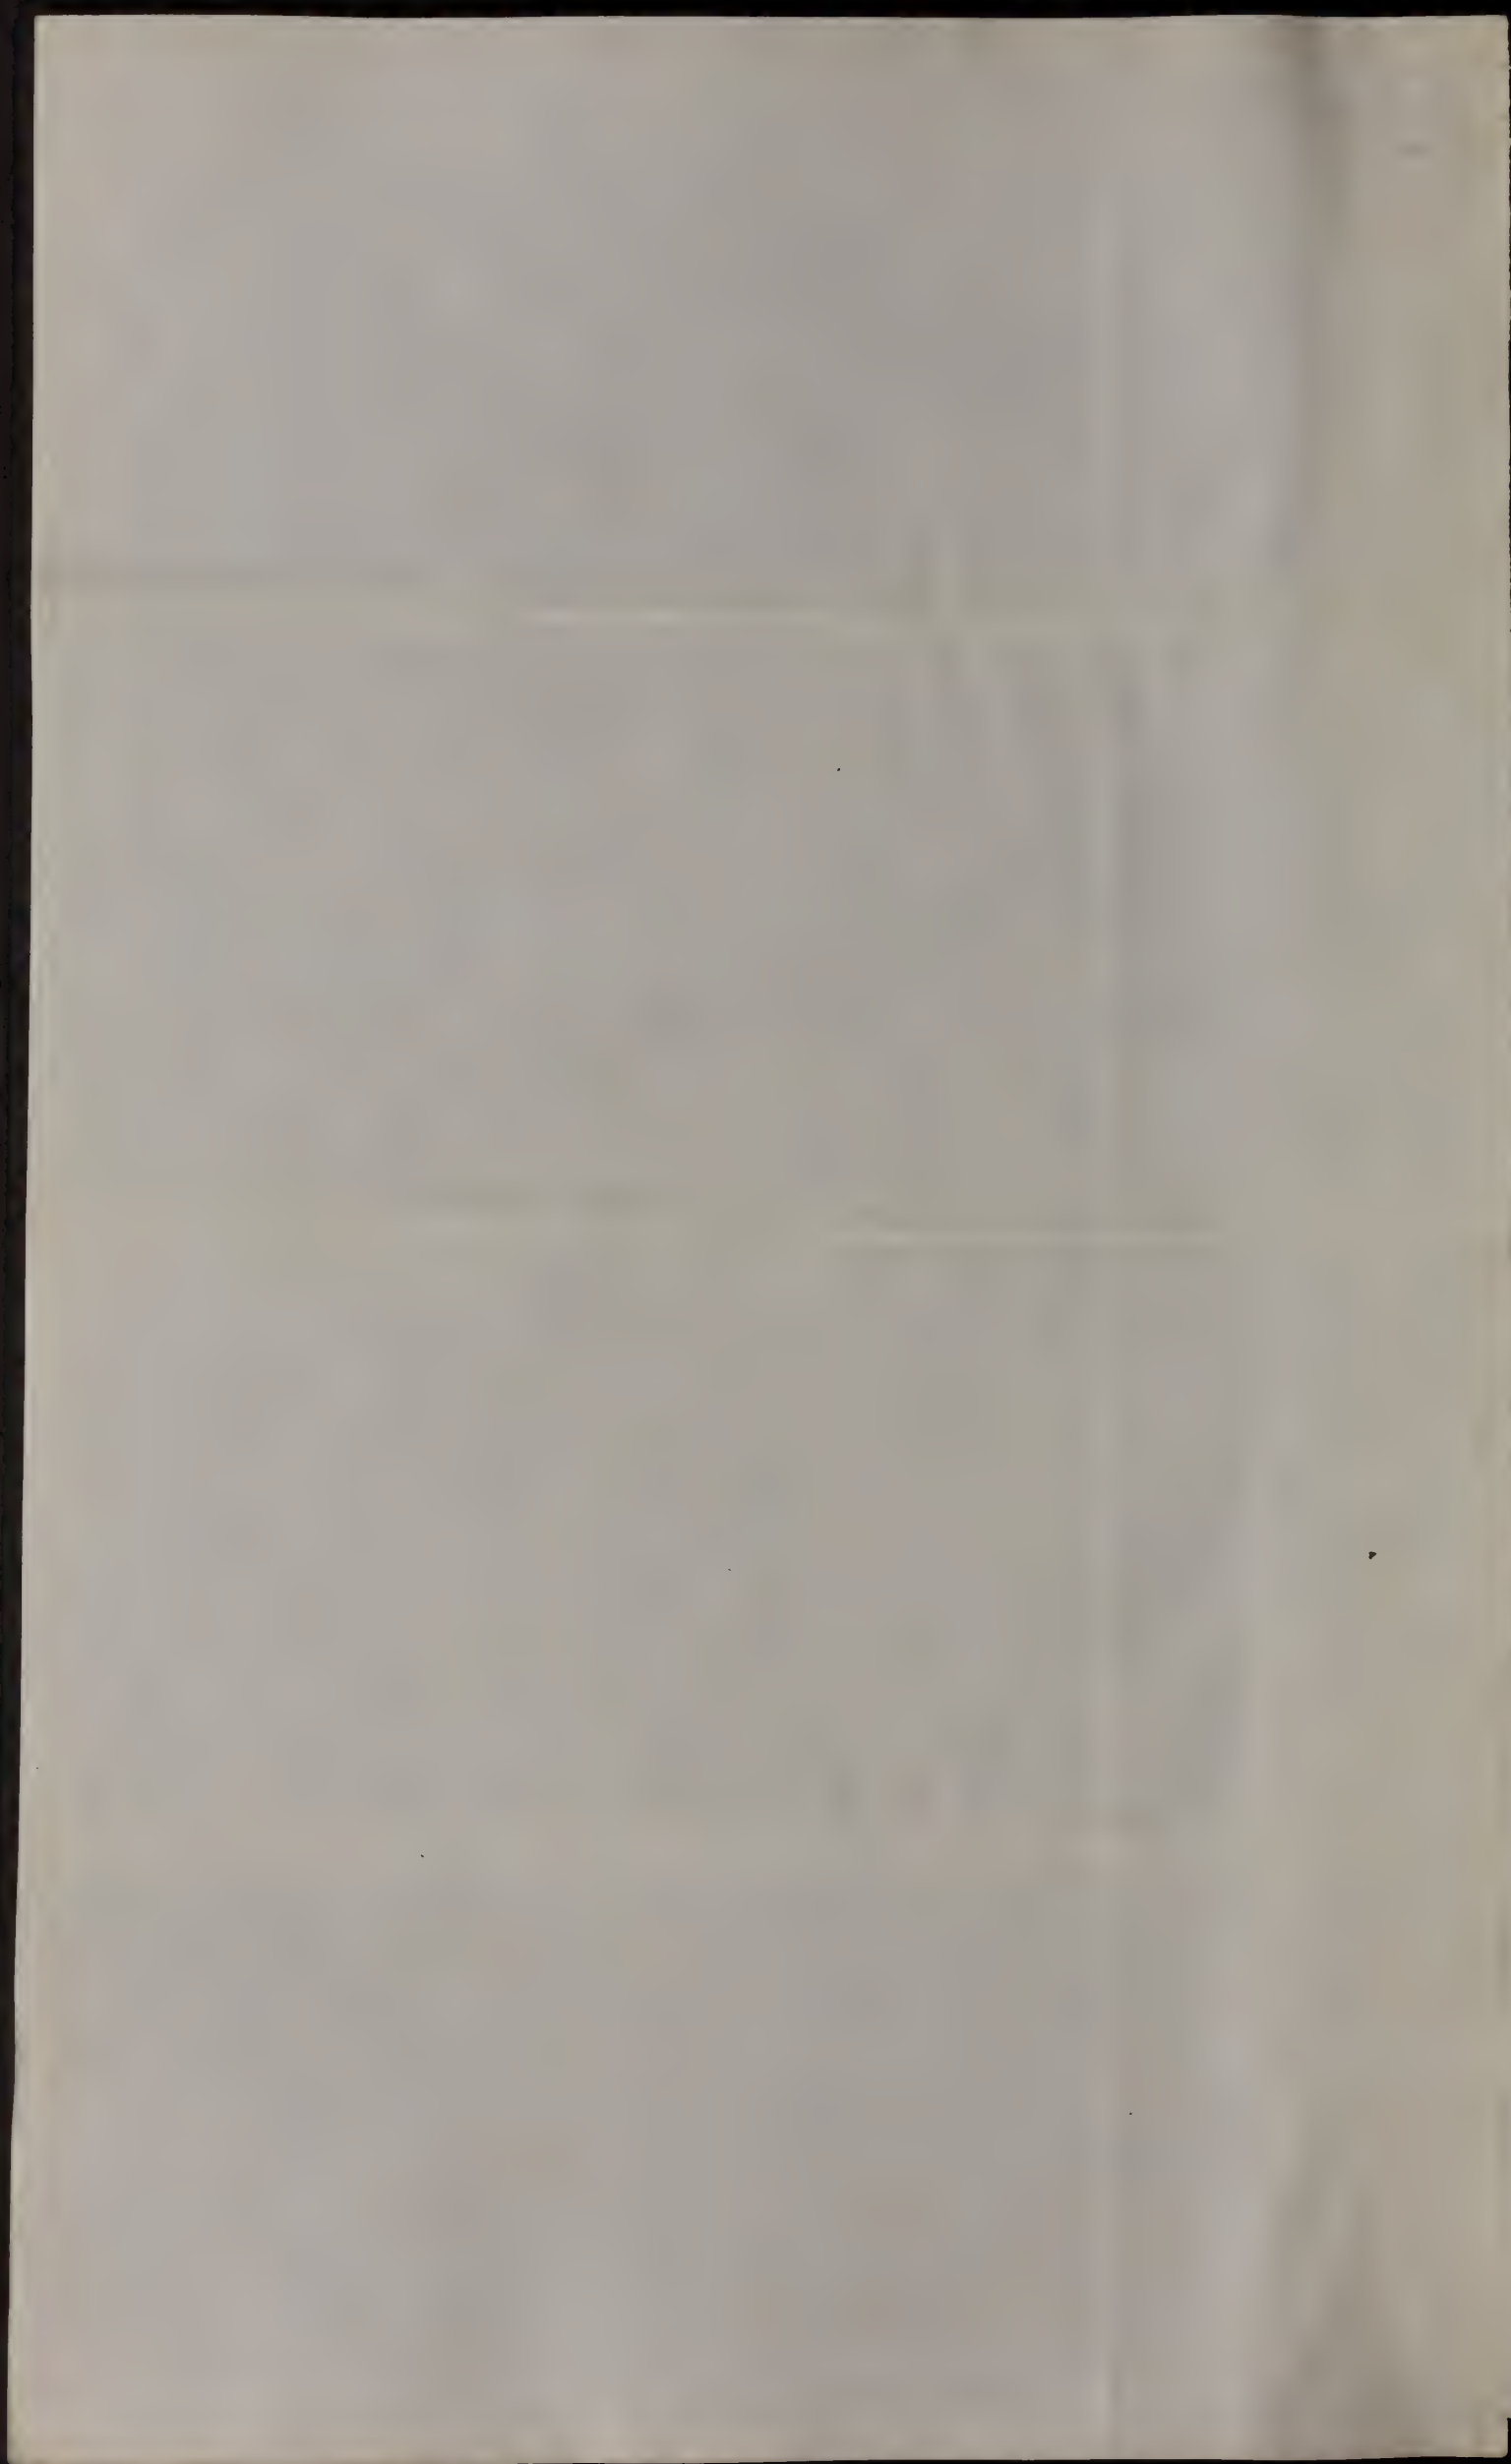

I have the honor to inform
you that at the last meeting
of the U. C. Coll. Committee held on
the 3rd inst. the following resolution
was passed:

"That the attention of the Bureau
be invited to the state of the drain
through the College play-ground, and
that he be requested to communi-
cate with the City Corporation to
ascertain if the City is not liable
to keep this in repair as one of
the common sewers of the City.
If he cannot obtain from the
City any portion of the expense of
making the necessary repairs
to the drain, the Bureau is requested
to undertake such repairs and
to charge them to the College funds."

Department of Crown Lands,

Quebec, 25th April 1865

L 19341/64

My dear Sir

The pressure of business during the Session of Parliament must be the excuse that the receipt of your letter of the 15th ultimo was not acknowledged with thanks for the trouble you took in the matter.

The information you supplied was already known. There has been evidently a misunderstanding because in the return made in 1841 the Sale No 29 of the Lot No 10 North of the Longwoods Road in the Township of Southwold to Laurence Doyle is represented as having been cancelled and the Lot resold reference being made to Sale No 394 made to P. O'Neil 7th July 1834. The Lot No 11 in the 1st Range

David Buchanan Esq

was

was subsequently granted by Patent:
and it is evident that it was the lot
No 10 in the 2^d Range that was sold
to O'Neil or as it is designated by
Colonel Talbot the North Half of lot
No 10 North of the Talbot Road.

And it may be that you will be
able to trace an entry on referring to
the lot in the 2^d Range I am
induced to ask you to have another
examination made.

I may add that the Return
made to the Department by the Council
of King's College in 1844 shows a
payment by O'Neil of £17. 9. 1 on
the 7th January 1837 as first payment
on No 10 in the 1st Range. The
payment of £48. 14 allowed to in dis-
charge of the 2^d lot was made on
the 10th January 1838 as shown by
the Receipt filed.

Yours truly

My dear Sir

Audit Office July 29th

My dear Sir

I am in receipt of your note enclosing copies of your circulars, to Professors & other salaried officers, & also to those who are in arrear for rent & interest on instalments - The latter is quite right & I hope it may produce its effect; but I have great doubts about the former, which I cannot help thinking is founded upon a supposition that the financial year ends Dec 31 instead of June 30 according to the late O.C. - The salaries in the University College & Museum Office amount to between \$36,000 & \$37,000 per annum or say \$9,000 per quarter. Now we have no reason to suppose that, even if no reductions were made on the present time, the overexpenditure of the Museum would exceed this sum. The last quarter's salary therefore as specified in your instructions would leave margin enough, & if it did not appear likely to do so a partial reduction might be

made in the salaries of the quarter ending March;
but I do not think that there is anything to justify
you in stopping anything on the 31st of August as
proposed in your circular.

Remember that the resolutions of the Board
of Audit are your only authority for making any
stoppage at all, & they do not authorize you to do
so except from the last quarter's salary. You
should pay therefore in full to Sept 30 &
Dec 31, & if you feel any doubt before March 31
whether the last quarter's salaries will leave
you margin enough, you should report to me
& I could procure you authority to make a
partial reduction in them. The main
stoppage must be June 30 and such salaries
as are paid monthly had better have a partial
reduction in each month & not all in the last
month -

It is true that as the Board of Audit
holds you personally responsible, you may
argue that you must be left to judge how best
to relieve yourself from this responsibility;

but the Board at the same time permits only the manner
in which you are to avoid overexpenditure, & there is
no doubt that as long as you adhere to your instructions
you cannot be held responsible for those instructions
being insufficient to guard against the evil which
they were designed to prevent -

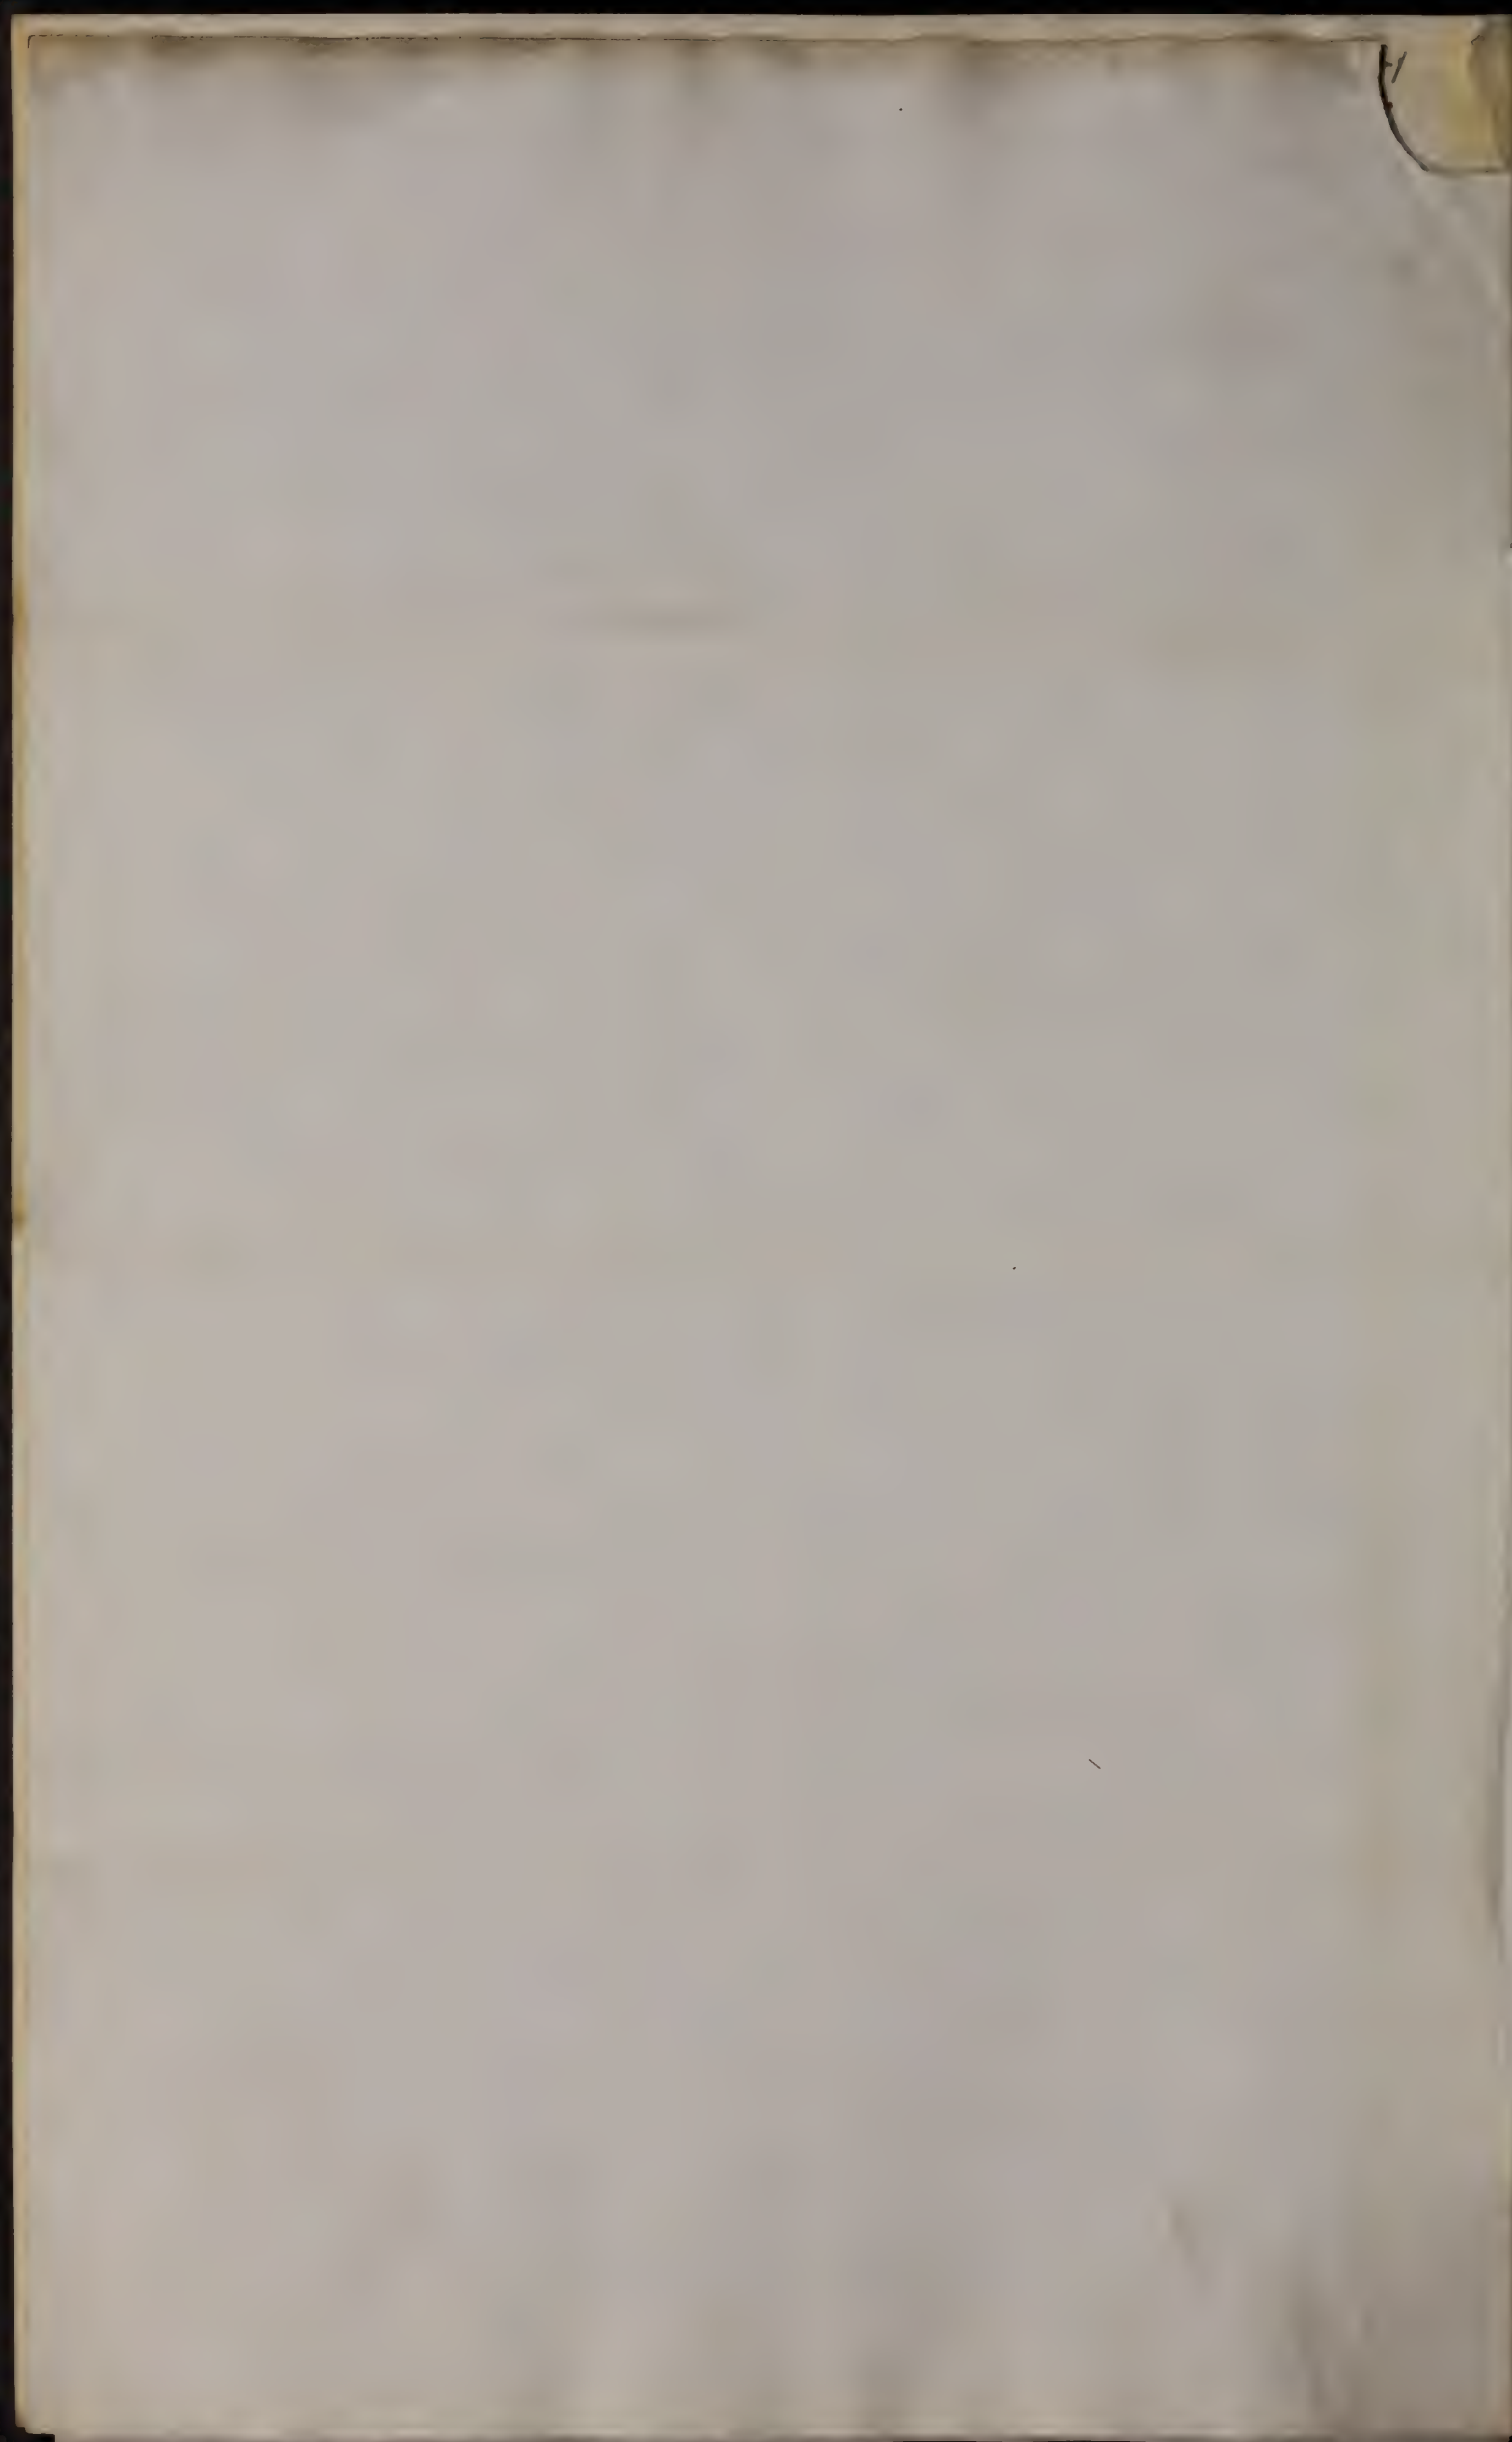

~~Yours~~

Yours

J. Buchanan &
Bursar.

July 19 1865, together with certain resolutions formulated
thereon, which were passed by the Board and have been
approved of by the Committee of Finance -

I have the honor to be

Yours obedient servant

Wm. L. G. G.
Auditor

David Buchan Esq
Bursar of the
University of Toronto

The Commencement of a new
 financial year without any steps having
 been taken by Government to place the University
 of Toronto on a satisfactory financial footing
 seems to call for some immediate action of the
 part of the Board of Audit. The Board has already
 by its report of January 17th brought all the
 circumstances under the notice of the Executive
 and it is to be hoped that measures will before long
 be taken to put a stop to the ruinous & excessive expenditure
 which is now going on. But should it occur
 that the important questions now before the Country
 may otherwise occupy the time of the Government
 and that no sufficiently ~~can~~ be taken to reduce the expenditure
 it still will remain my duty under the amended
 Audit Act to prevent all illegal expenditure in the
 only way which is in my power. The Treasurer is
 forbidden by law to expend anything beyond the
 revenue of the Income Fund, and it is my duty to
 enforce the law by holding him personally responsible
 for anything he may pay out in excess of it. The
 practice has however existed now for so long a
 time of neglecting the clear provision of the Act, -
 a practice if not actually sanctioned at least
 tacitly acquiesced in by the Executive - that it
 would be unjust not to give ample notice to all
 concerned that from this time forward a more
 stringent application of the law will be enforced.
 I recommend therefore that it be resolved

That it is not lawful for the Treasurer of
 the University & Colleges Toronto to pay out any

Sums in any one year in excess of the sums received by him during the same time which by the 76th section of the University Act (Can. Stat. U.C. Cap. 62) constitute the Income Fund

That by an Order in Council passed this day the Governor General so empowered by the 12th section of the Audit Act (27 & 28 Vic. Cap. 7) has assimilated the fiscal year of the University to that of the Province viz. commencing July 1st and ending June 30th.

That this Board will hold the Treasurer personally responsible for any sums which he may pay on account of the University of Toronto or University College during any fiscal year in excess of the revenues of the University Income Fund for the same period and for any sums which he may pay on account of Upper Canada College in excess of the revenues of the Income Fund of that institution -

That at the end of the last quarter in each fiscal year if there shall not be funds in hand belonging to the Income Funds aforesaid sufficient to pay the salaries of the University, University College, Upper Canada College and the Treasurer's Office the Treasurer shall make such a deduction from all the said salaries pro rata as shall bring them within the amount of funds at his disposal.

That with his accounts for that quarter the Treasurer shall transmit to the Auditor of Public Accounts a statement of all sums which he has so deducted.

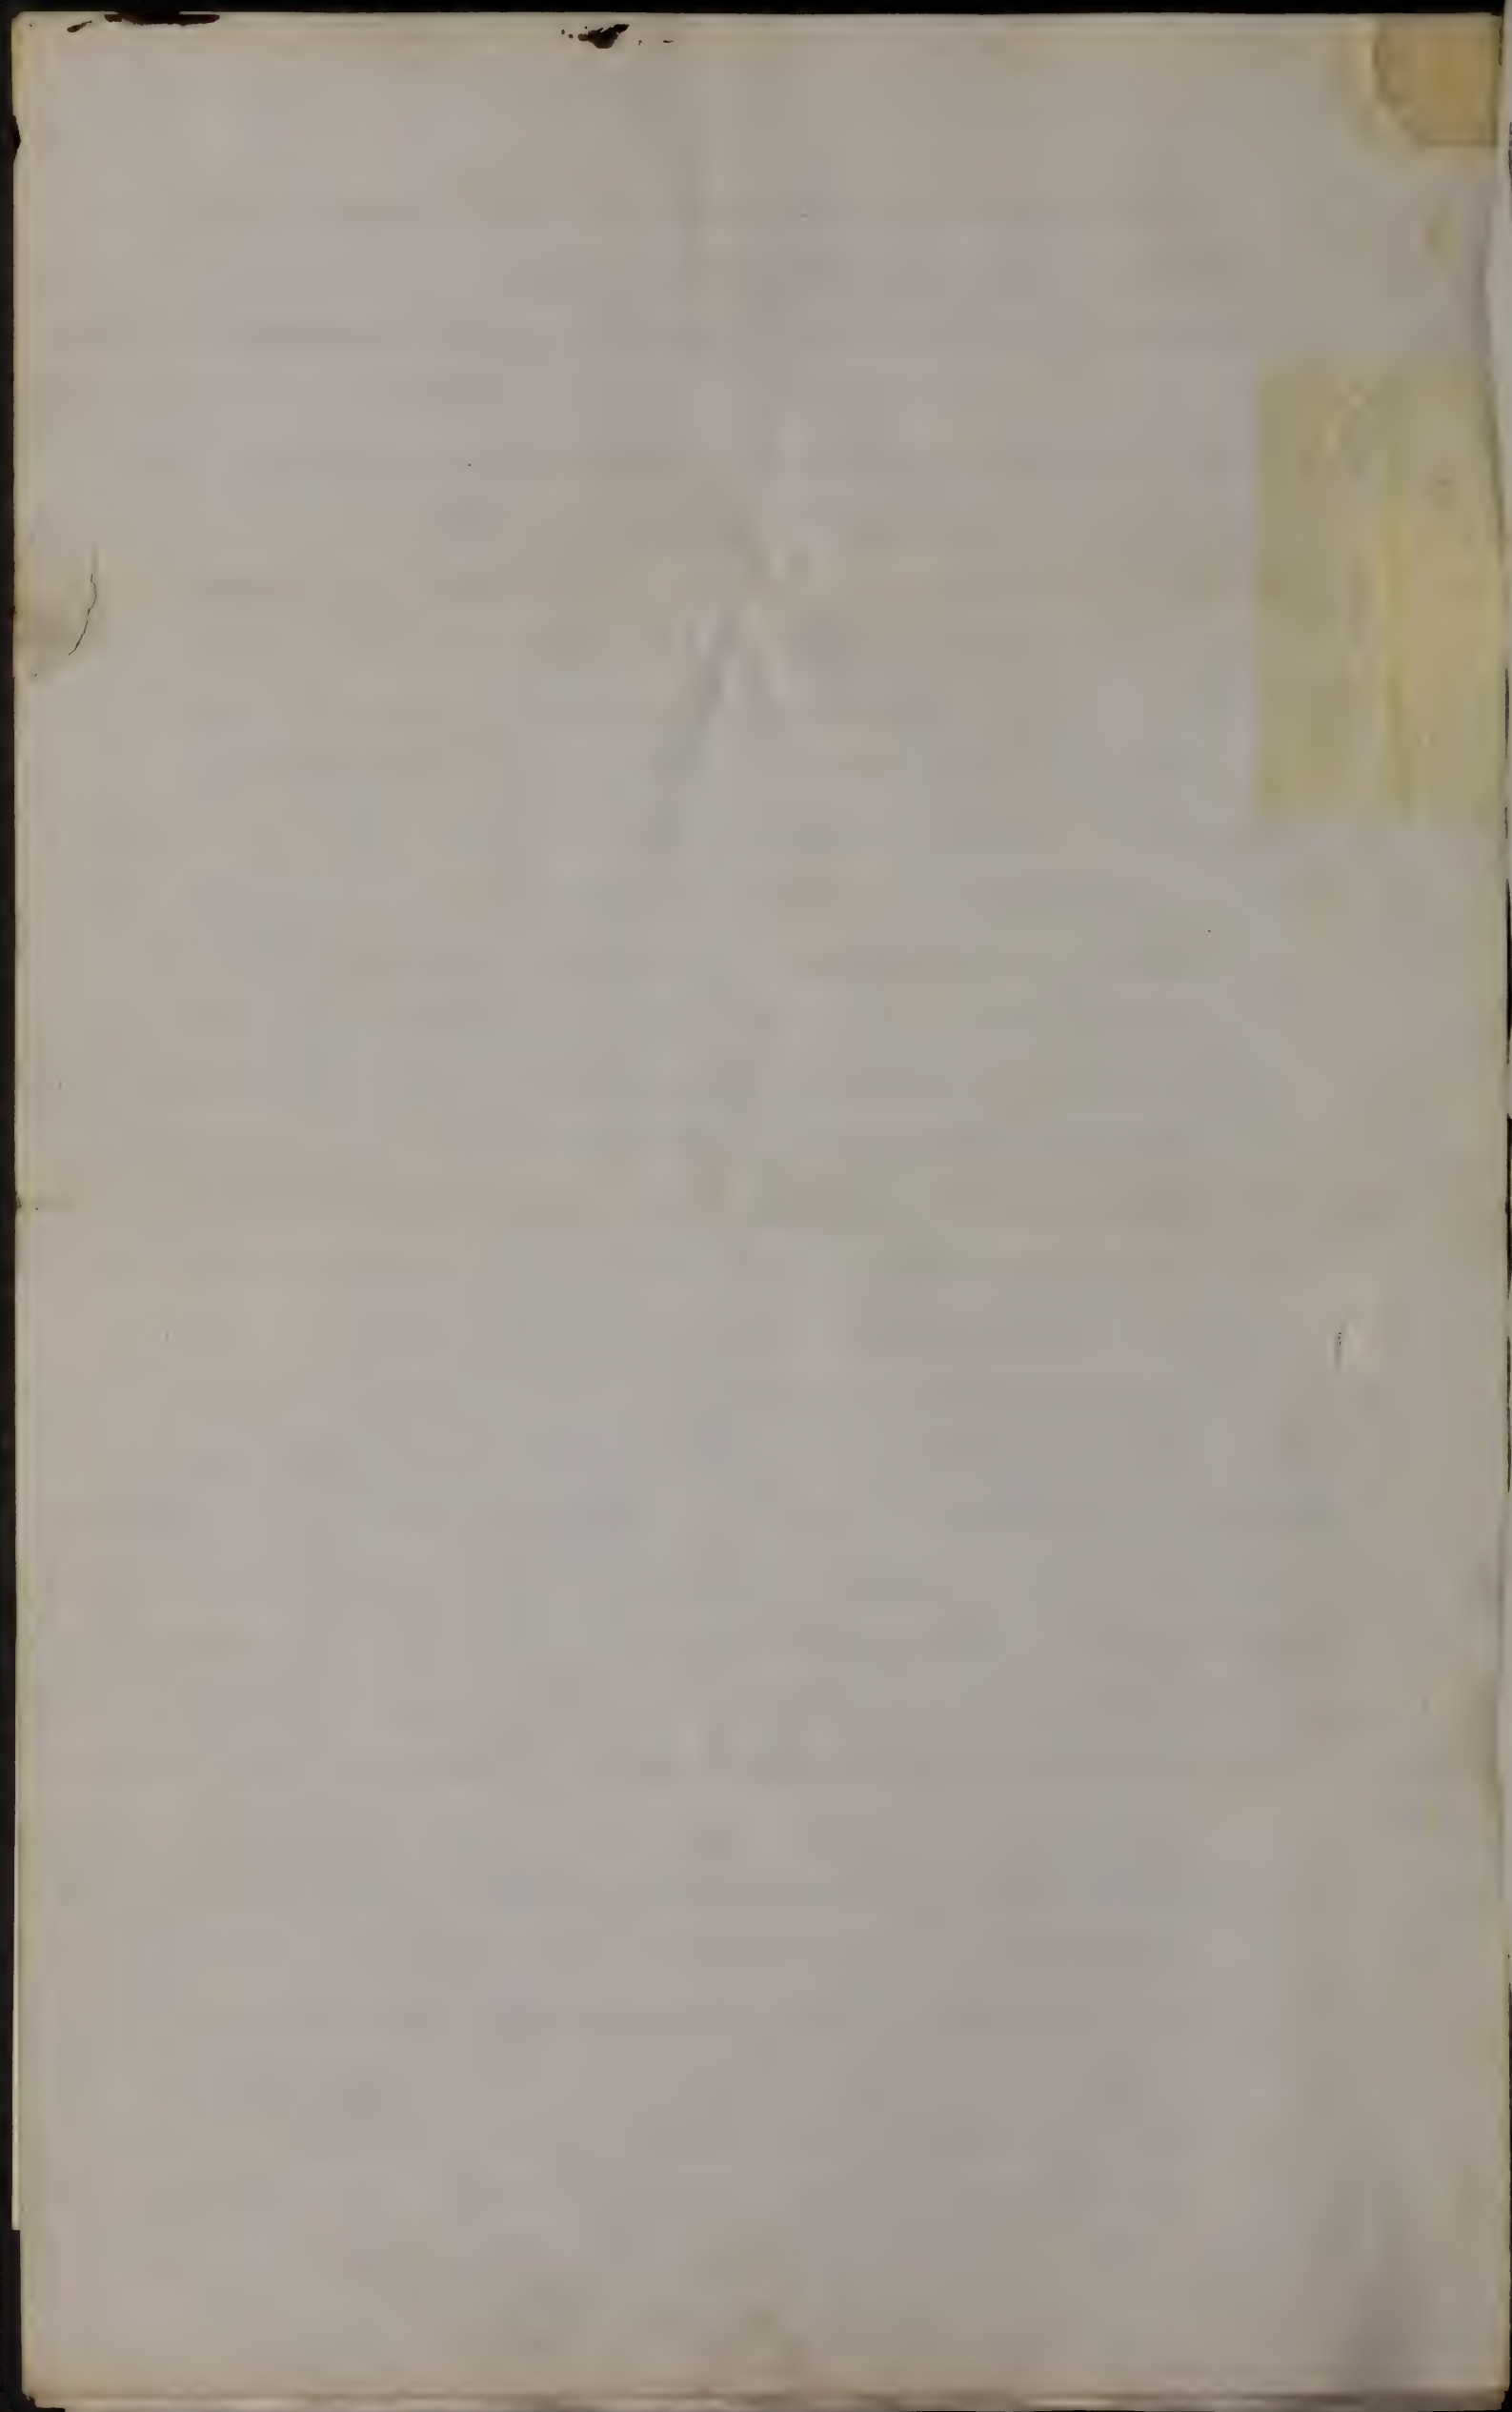

That a copy of these resolutions be forthwith transmitted to the Treasurer to the Chancellor of the University to the President of

University College and to the Principal of
Upper Canada College

The above resolutions were passed

Oct 31. 1885.

My dear Sir, The following reductions

in the expenditure of the College
have been made since September

30:-

1. The payment of \$415 per month

to Jones and of \$48 per month

to McKinnon will cease.

2. The Engineer - Robert Harding -

will receive \$350 per annum,

95

payable monthly, and the attendant.
 David Thompson - will receive
 \$203 for the seven months -
^{29 January}
 Note 1st April 30 - payable
 monthly.
 3. The Dear of Residence - James
 Lincoln, M. A. - will receive
 \$400 per annum, payable
 quarterly, instead of \$800 as
 paid to Jefferson Brundland.

These reductions are in satisfaction
 of the Unmoral of the salary
 of \$320 per annum for a Hotel.
 They are subject to future modifica-
 tion, of which you shall, of course,
 be duly informed.

My dear Sir

We have received a letter
from Professor Sherman
asking whether I should direct
to our item in your accounts
for the payment of a gratuity
with the words of the late Mr.
Walker of the Observatory -
I have not the Statutes of the
Senate here to refer to, but I
am clearly of opinion that
the Senate had no intention
in passing that Statute to

95

limit the powers of the Committee
 or of the Director. The intention
 was to place the ordinary
 expenditure under the Director
 & to hand over to the Committee
 any further powers which the
 Senate might itself possess.
 Although there is such
 payment may not perhaps
 be strictly within the letter
 of the Statute I shall
 make no objection to it on
 the ground of your account.

Office of the Bursar

OF THE

University and Colleges at Toronto.

TORONTO, 25th July, 1865.

SIR,

It is my duty to inform you that I have just received, through the Provincial Auditor, a copy of a document containing certain resolutions of the Board of Audit, approved by the Minister of Finance, by which—because a new financial year has commenced "*without any steps having been taken by Government to place the University of Toronto on a satisfactory financial footing*"—I am henceforth to be held personally responsible for any excess of payments over income received; and am directed, when necessary, to make a *pro rata* reduction from the salaries payable to parties connected with the University, University College, Upper Canada College, and the Bursar's Office. Under such circumstances, it cannot be expected that I shall run any risk of subjecting myself to the infliction of such a penalty, and in order to protect myself the course which I have determined to adopt is this :—

The monthly salaries due on 1st August will be paid in full. But after that, no salary will be paid in full unless there is at the time a sufficient amount at the credit of the income fund to meet the demand; and, as some salaries are payable monthly and others quarterly, the *pro rata* quarterly deductions from the former will be adjusted in the third month of each quarter.

I am,

Your obedient Servant,

Copy of a Report of a Committee of the Honorable
the EXECUTIVE COUNCIL, approved by His
Excellency the Governor General in Council
on the 18th December 1865.

The Committee have had under
consideration a Report dated 14th Nov^r
1865 from the Bursar of the University
of Toronto referring to previous Reports
made by him on an application
from M^{rs} J. G. Ridout in reference to a
claim, the debt due by her late husband's
Estate to University under a Bond
given by him as surety for the payment
to the University of the purchase price
of certain lots in the City of Toronto
bought by M^{rs} George Ridout.

M^{rs} Buchan states that M^{rs}
Ridout - whose claim for a remission
of the debt was rejected by order in
Council of 25th November 1864 - now
proposes to meet the claim of the University
by the surrender of all interest in
the

To the Honorable

The Provincial Secretary.

ga. ga. ga

the Lots in Toronto in connection with which the claims of the University arose, and by the transfer of other lots, on property in Port Hope belonging to her late husband's Estate. to meet the accumulated interest be-
 That she assured him, the Bursar, also that she had no prospect of being able to pay the debt in any other way.

That as the Bank of Upper Canada had accepted a similar proposal; and as the case is a hard one for her, he assented to the proposition; in so far that he named a party to act with another chosen by her to select and value lots on her property, to be accepted in lieu of cash provided he received Your Excellency's approval of the arrangement.

That he received the decision of the referees, a copy of which he submitted; and procured a tracing (also submitted) of so much of the plan of Mr. Ridout's property as is necessary to show the position of the Lots.

That

That the value which has been placed upon the lots is as near as possible \$600 per acre, and on referring to University Sales in 1853 and the early part of 1854, on the other side of Port Hope, before speculation began to run riot there and which have been paid for; allowing also for the difference of situation - the Ridout lots having greatly the advantage, - he is disposed to acquiesce in the decision of the referees, and recommends that he be authorized to close finally with Mr. Ridout's proposal.

That the transaction will stand thus - The original price of the three Lots in Toronto held by Mr. George Ridout, and for which Mr. T. G. Ridout became responsible was \$1540⁰⁰ the Balance of principal remaining unpaid is \$1386⁰⁰ for which he proposes to accept the surrender of these Lots. That the interest on the Judgment, together with costs already paid to the Solicitor, amount to \$1438⁵⁷ calculating to the 21st October last. That for this last sum he proposes to accept a conveyance of the lots in Port Hope;

W^m

— Mrs Ridout satisfying the University solicitor for all costs not already paid by him.

The Hon. the Provincial Secretary recommends that the Bursar of the University be instructed to settle the claim of the University against the Estate of the late Mr J. G. Ridout in the manner proposed in the report of the Bursar above submitted.

The Committee advise that authority be given for the settlement of the above claim in the manner above proposed.

That

That the whole salary of the Professor of Meteorology be charged against the observatory Grant.

That the salary of the present Professor of agriculture be reduced to four hundred dollars per annum, and that he receive a gratuity equal to six months of his present salary.

That the Professorship of Modern Languages be abolished, and that the present Professor receive a gratuity equal to two years' salary.

That two Lecturers in French and German be appointed with such salaries as may be determined by Statute of the Council of University College.

That the annual sum of \$45,000 be assigned out of the ^{University} Income Fund as the estimated average income from the endowment, which, together with the fees in the University and College and all miscellaneous receipts not coming under the head of Rents, Interest on instalments and Interest on investments and cash balances, shall be held to be the available income of the University Income Fund until June 30th 1871.

That the annual sum of \$12,000 be assigned as the estimated average income from the endowment of Upper Canada College which together with the fees & miscellaneous receipts

(107)

receipts as above described shall be held to be the available income of Upper Canada College until June 30th 1871.

That in the event of the available income of either institution being in any year not entirely expended, the balance shall be carried forward to the credit of the next year.

That in case the ordinary expenditures in either institution would otherwise exceed the available income the Bursar shall, in the last quarter of each financial year, make such deductions pro rata from the proportion of his own salary borne by that institution and from all other salaries connected with it (except servants' wages) as shall keep the total expenditure within the available income.

That the gratuities above recommended shall not count as part of the ordinary expenditure, but shall be charged against the Income Fund over and above such ordinary expenditure.

That the deductions which may be made from salaries under the foregoing rules shall not be absolute at first but shall be carried to the credit of the several officers in a suspense account and shall be repayable pro rata and in the order of their priority out of any surplus of available income in succeeding years; but any deduction which has remained unpaid for five (5) years shall be made absolute.

That

That the Bursar shall charge all expenditure up to December 31st 1865 against the Income Fund of the two Institutions irrespective of whether it exceeds the available income up to that date, and that this regulation shall come into force on the 1st of January 1866 and thence forward to the end of the financial year ending June 30th 1871.

That it shall be the duty of the Bursar on or before the 1st January 1871 to make a special report to Your Excellency in Council, shewing the then condition and prospects of the University and of Upper Canada College with the view of ascertaining whether any further regulations may be necessary to restrict the expenditures of either institutions.

The Committee concur in the Report of the Provincial Secretary and respectfully submit the same for Your Excellency's approval.

J. A. Meredith

Assist. Secretary.

There can be no difficulty in the interpretation of the order in Council. The Minute of the Board of audit was founded upon the facts as they stood at the time. There was no authority to expend in any year more than the income actually received, and the Board instructed the Bursar how to keep within the amount. But the order in Council authorizes the Bursar to expend up to the sum of \$45,000 whether that amount has actually been received or not, and the method prescribed by the Board for keeping within the available income now only applies to the available income as defined by the order in Council viz- \$45,000 from the endowment & fees & miscellaneous receipts over and above that sum. In order to carry out the intention of the Order in Council the Bursar should open a new account besides that of the Income fund so as to shew the amount expended as against the amount authorized, & the amount authorized as against the actual receipts.

The account of the Income Fund for the next five years will consist on the one side of the receipts from the endowment - viz rents, interest & instalments & interest on investments, & on the other \$11,250, per quarter appropriated by this O.C. The balance against the fund Jan 1. 1866. must be brought forward and the balance carried on from quarter to quarter.

The other account may be called the University Appropriation account. On the one side it will contain \$11,250 transferred from the Income Fund together with all fees & miscellaneous receipts, & on the other all expenditure. There can be no balance against the appropriation as the ~~former~~ Bursar will permit no over expenditure; but any balance unexpended will be carried on to the credit of the next year's appropriation.

This form of account will remain in force until June 30 1871 when if no further restrictions are enforced by order in Council in the

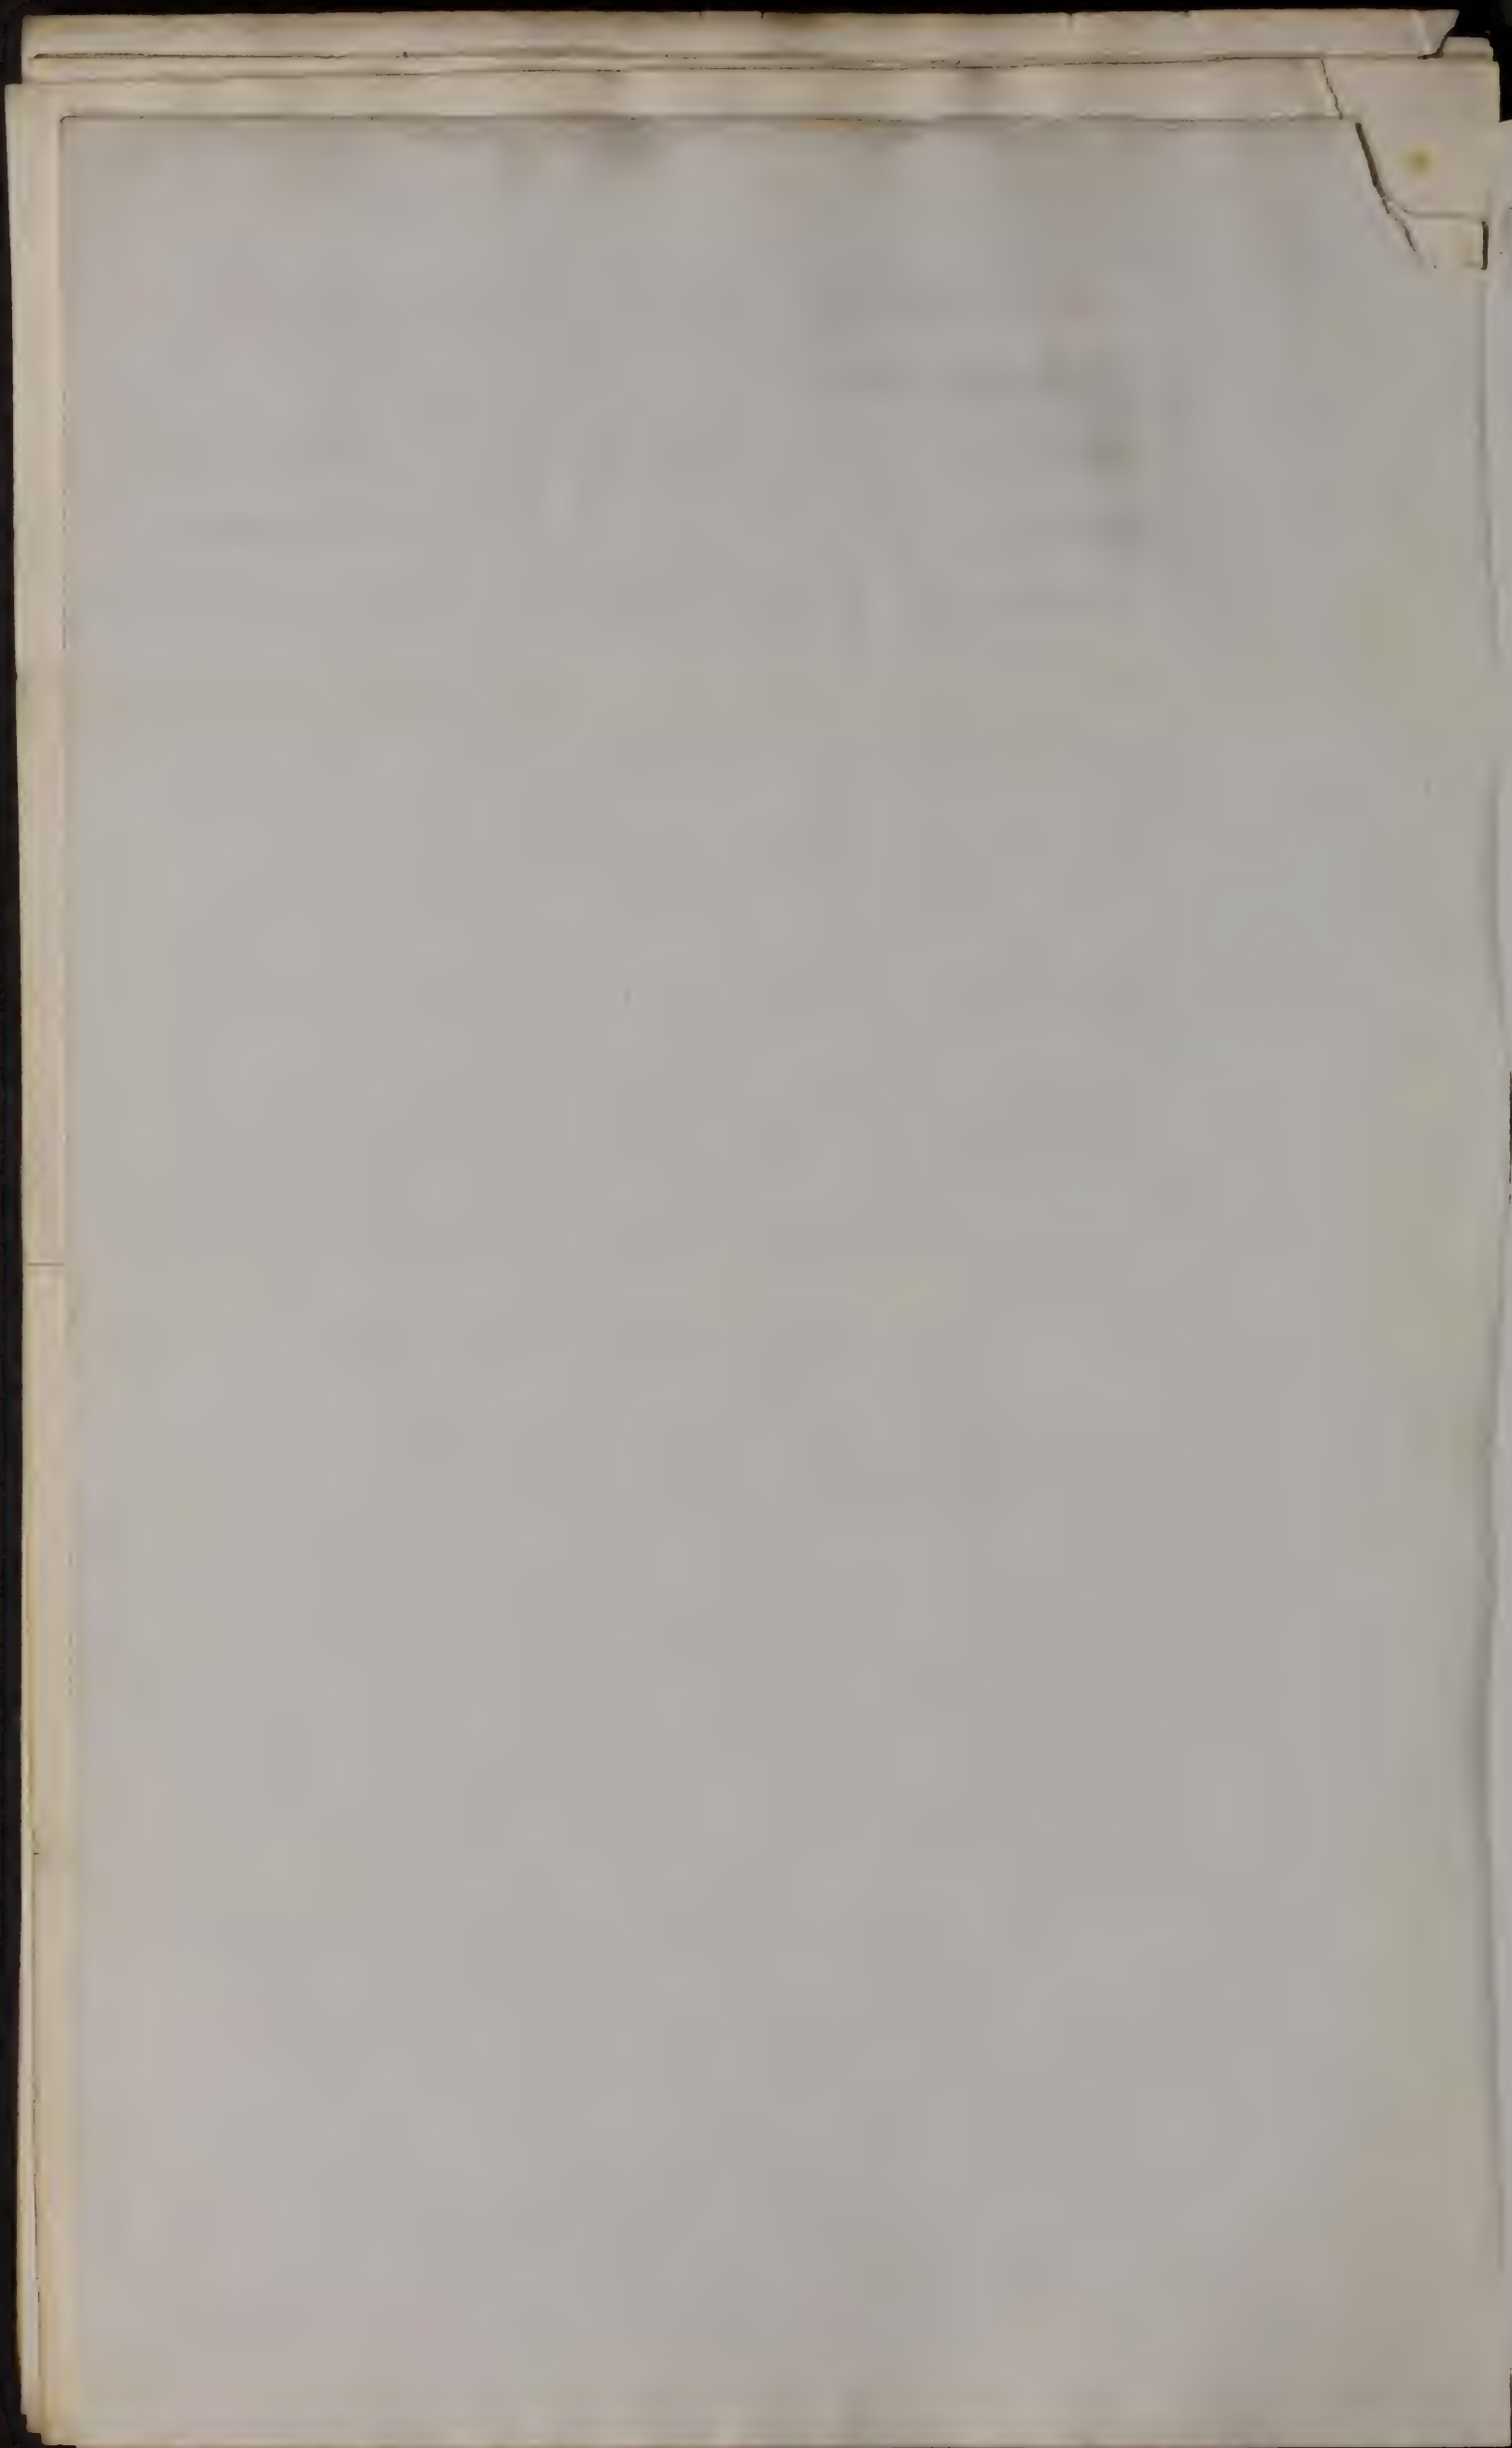

meantime, the present appropriation of \$45,000 per an, lapses & the Bursar will revert to the former system of charging the expenditure directly against Income Fund, & the instructions of the Board of Audit to limit the expenditure to income actually received will revive.

The gratuities to Professor Buckland & Forneri are to be charged against the Income Fund and not against the \$45,000, if they have not already been charged before Jan 1 1866.

I concur with the Bursar in thinking that pensions do not come under the clause of the O.C. authorizing a deduction to be made from salaries & that the pay of the assistant librarians must be considered as servants' wages.

Statute.

for the appointment of a Committee
called the Committee on Finance.

By the Senate of the University
of Toronto.

Be it enacted.

I. That there shall be a Committee
of the Senate who, in conjunction with
a Committee of two of the Council of
University College appointed for a similar
purpose, shall determine from time to
time what portion of the expenditure
of the income available under the
order of the Executive Council of the
twenty first day of December last, shall
be borne by the University and
University College respectively, and shall
form a joint Committee to control the
items of joint expenditure. This
Committee shall also supervise and
manage all matters of a financial
character within the control of the
Senate and Council.

II That the said Committee of the
Senate shall consist of the Chancellor
vice-Chancellor, and one member of
the Senate to be annually elected on the
first Thursday after the first Tuesday
in October in each year and subject to
the

March 15 New York

Qualifying Matter
Discovered -

Feb 10 1868

N^o 598 of 64

Provincial Secretary's Office,

Ottawa, 17th March 1866.

Sir,

With reference to the
letter to you of the 31st
May 1864, I have the honour
to transmit to you, herewith
a copy of an opinion of the
Hon^{ble} the Solicitor General
for Upper Canada, on the
subject of the Statute passed
of University College, repealing
the Statute regulating the
scale of fees payable for
attending Lectures, and
substituting another scale.

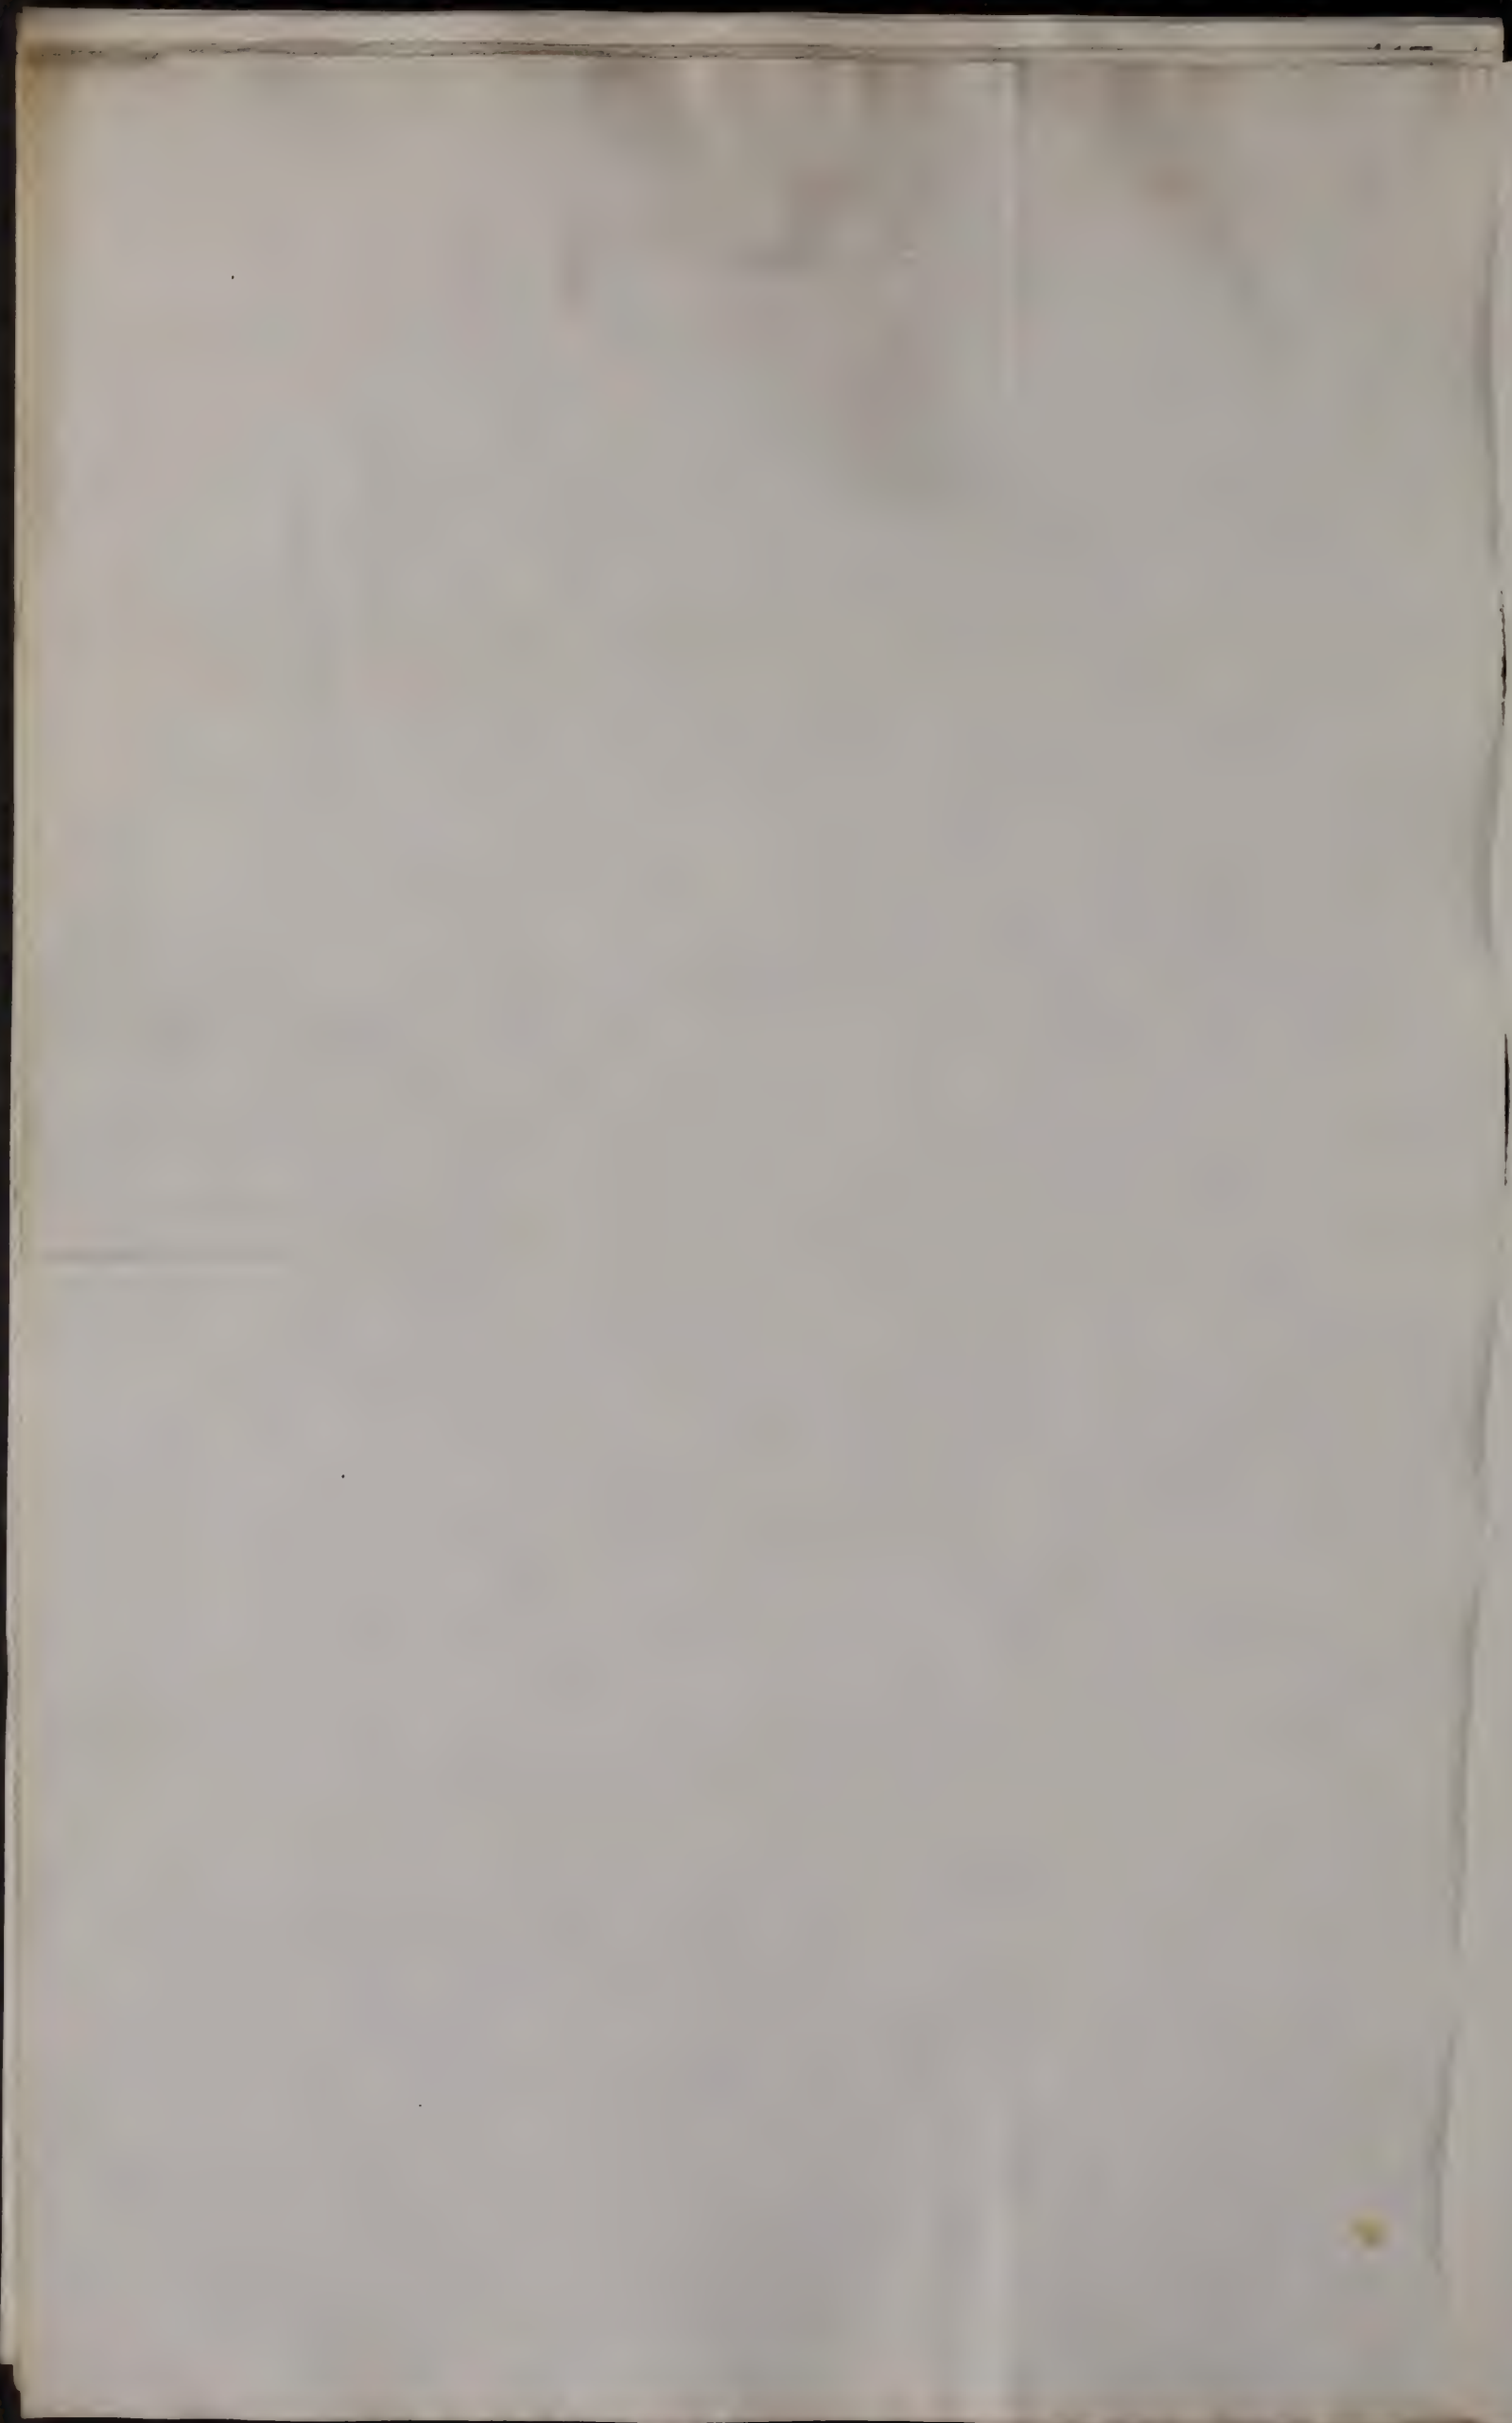

I have the honour to be

Sir,

Yours most obed^t. Serv^t.

Assist. Secretary.

J. T. Buchan Esq.
Bursar,
University of
Toronto
etc.

(12)

Office of Attorney General for
Upper Canada.

Upon the Memorandum
submitted by Mr Langton, I am
of opinion That:

1. Assuming that the old University
Statute was legal at the time of its
passage, it was repealed by the
16 V. C. 89 in that it appropriated
the fees payable in respect of
University College, which that
act did not permit.

2. I think that even if the old
Statute were in force now it
would only apply to Undergraduates
in Arts and not additionally
to persons attending Lectures.

3. A reference however to the
new Statute of the Council of
University College shews that it
expressly repeals the old Statute,
thereby abolishing the fees; and
this new Statute provides for fees
without making application
of them, thus keeping within the
provisions of the Act. The fees
collected under this new Statute
are therefore, I think, payable
to

to the Bursar.

4. The words in Sect. 75 "or such part thereof as may be payable into the general fund thereof" implies an exception. That exception, I think, can only be when the University Senate may pass a Statute for imposing fees and for applying them. As Mr Laughton's Mem. says there is no such Statute to that effect, it follows that all fees are at present payable to the Bursar.

5. In effect, I think that the University has alone the power to pass Statutes as to the imposition of fees and their application. Failing any such application, they become under Sect 75 part of the Income Fund. The College Council may impose fees, but the application of the latter is provided by the Statute.

(125)

Copy of a Report of a Committee of the Honorable
the EXECUTIVE COUNCIL, approved by His
Excellency the Governor General in Council
on the 23^d April 1866.

On a memorandum dated 18th April
1866 from the Hon^{ble} the Provincial
Secretary reporting that the order in
Council of 21st December 1865, which was
specially designed to meet the difficulty
in the finances of the University of Toronto,
does not altogether accord with the
peculiar circumstances of Upper Canada
College - That from a report of the Bursar
of the University and a memorandum of
the Auditor of Public accounts it appears that
the probable income from the endowment
has been rather under estimated - he therefore
recommends: -

1st That the estimated average income
from the endowment which the Bursar is
authorized annually to appropriate from
the Income Fund towards the expenditure
of Upper Canada College be \$12,500 and not
\$12,000 as provided in the order in Council
of 11th December 1865.

2^d

To the Honorable

The Provincial Secretary

ga. ga. ga.

2^d That the Bursar be instructed to open a special account for the Resident Boarding House, permitting no expenditure in excess of the receipts and carrying on any balance at credit distinct from the general receipts & expenditure of the College; and that the terms of the order in Council of 21st Decr/65 shall only apply to the rest of the receipts and expenditure of Upper Canada College, irrespective of the Boarding fees and of the sums charged against them in accordance with the Statutes of the Senate.

3^d That by the order in Council above quoted the Bursar's salary is liable to deductions in common with those of the Professors and Masters, if there is any over expenditure in the University or in Upper Canada College, and also if there is any expenditure in excess of the \$4000 appropriated for the expenses of joint management. We therefore recommend that no deductions shall be made from the Bursar's salary as long as there shall be a sufficient balance of the \$4000 appropriated for general management to pay it.

The Committee submit the above recommendation for Your Excellency's approval.

(126)

Audit Office Ottawa

May 4th 1886

Sir

I have given due consideration to the subject referred to in your letter of March 22nd and Mr Cockburn's letter attached to it. As far as the Board fees are concerned, the expenses are in proportion to the number of weeks during which the boarders are in residence, and the receipts ought to be divided between the two half years in the same proportion. These proportions appear to me to be as nearly as possible 15 weeks in the half year ending December 31 & 25 in half year ending June 30, I am of opinion therefore that you should carry to the credit of the current half year the sum of \$1152.50 as stated in your letter.

The tuition fees are differently situated

as the expenses are nearly uniformly distributed over the year. I think therefore that you should leave the tuition fees as they now stand in your books, viz half a years fees at the credit of the half year ending Dec 31 & half a years fees for the current half year -

Dear Sir

Re Harris's request

I have beg to return you the Report of the property
Comprised in this Bill and the business as a Corporation -
for the Court in Trust for it, is capable of taking &
holding the lands for the objects intended by Dr. Harris
withstanding the Objections of Dr. Harris. I will therefore
prepare a Bill for the Regulations of this request -
In the meantime, it wd. I think be well for you to adopt
the suggestion contained in the Report. I will retain the
copy of Dr. Harris's bill

My dear Sir

In March sent a copy
of an opinion of the Solicitor
General about fees was sent
to you. The original seems
to have been lost. Will you be
good enough to let a copy if I
made I send it to

Mr James Cockburn

Let him

know

Yours truly

Wm Lambton
